BITS Pilani
PILANI | DUBAI | GOA | HYDERABAD

Message from our Vice-Chancellor

Prof. V S Rao

Deemed to be University, established under Section 3 of UGC Act 1956, accredited with an 'A' Grade by NAAC, the Institute has been consistently ranked amongst the top 10 engineering institutes in the country and as the best private engineering institute by leading magazines and newspapers. Needless to say, this has not happened accidentally. Right from its inception BITS Pilani has had a world class curriculum for its UG and PG Programmes, with emphasis on developing analytical skills as also on hands-on laboratory-based experimentation and project-oriented work. BITS Pilani, with the help of MIT, was the first in India to introduce a semester based credit-based system with continuous evaluation. Admissions to UG and PG programmes at BITS Pilani are based solely on merit as determined by nationwide online tests conducted by BITS Pilani. Once students undergo rigorous training, both inside the classrooms and laboratories as well as outside, they are well equipped to design, develop and market products and services for the discerning consumers in India or abroad

and also take on leadership roles in later years in their careers. I would like to invite design, manufacturing and service organizations in India and abroad to visit our campuses at Pilani, Goa, Hyderabad and Dubai and explore employment/placement opportunities with our students graduating in the year 2016.

Prof. V S Rao
Vice-Chancellor

BITS Pilani

Shaping minds, Reshaping India

Focus on providing opportunities for overall development”

We are Birla Institute of Technology and Science, Pilani (BITS Pilani), one of India's leading higher education institutes and a deemed university under Sec. 3 of the UGC act.

Our commitment to transparency and our stress on equal opportunity has been a key contributing factor behind our emergence as an institute of national repute. Our rigorous intake process rewards merit exclusively and ensures that only truly motivated students join us. Our curriculum is continuously being innovated and refreshed to reflect the latest developments in

technology and trends within industry. Pure academics are supplemented by pervasive industry engagement and every student is exposed to practical applications of classroom knowledge under a structured semester-long engagement programme.

In addition to academics, we also focus on providing students with opportunities for all round development. All our campuses are thriving nodes for student driven art, sports and other activities. In keeping with the needs of tomorrow, we are expanding our focus on research even further and seeking newer avenues of industry

engagement to help our students gain the skills to power the knowledge economy of the future. Since our inception, we have strived to stand apart and create professionals who excel on every parameter. Today, our alumni body is a vast and thriving community of technocrats, senior executives, successful entrepreneurs and leaders of society. It is this legacy of excellence that continually inspires all our students.

A Winning Legacy

History

Our flagship campus at Pilani (Rajasthan) was set up in technical collaboration with MIT (USA), under the Ford Foundation Grant and later was deemed to be a university in 1964. Over time, our footprint has spread across the nation and abroad with the opening of sister campuses at Goa, Hyderabad and Dubai. We have been accredited with the highest grade 'A' by the NAAC and

received a combined score between all our campuses of 3.71 out of 4. Outlook Magazine has ranked us the best private engineering university and the 6th best overall. The magazine also ranked us No. 1 in terms of personality development, Industry interface and Infrastructure.

“

Our flagship campus
at Pilani (Rajasthan)
was set up in 1964”

Alumni Network

The truest worth of an institute can only be gauged by the success of its alumni. On this front, our students have made us proud time and again. From top corporate executives to successful entrepreneurs, from leading researchers to renowned faculty, and leaders of Industry to leaders of the nation, our alumni have made truly remarkable achievements in a diverse range of fields.

Our vast alumni network helps us in bringing a real-life perspective to students by interacting with them regularly through meets arranged by the Alumni association and coaching and mentoring students to prepare for real world challenges in industry and beyond.

Transparent Intake Process

The pursuit of excellence requires a transparent and honest approach ”

BITS Pilani is one of the very few institutes in India where 'Merit' is the only criterion for admission.

BITS conducts a fully online examination –BITSAT, which ensures complete transparency.

Apart from Physics, Chemistry and Maths, BITSAT tests students on logical reasoning and English, thus making it more complete and comprehensive in its evaluation of the candidates.

Applicants must have 80% aggregate in Physics, Chemistry and Mathematics and 60% score in English, in their senior secondary board exams to be considered for admission.

Similar merit-based intake policy is followed in all admission Processes in Masters and PhD admissions.

Every year, a large number of Board toppers join BITS from all across the country.

Admission to BITS Pilani, Dubai Campus is based entirely on the candidate's merit in 10+2 level examination. Candidates with BITSAT score have preferential admission. Candidates from GCC countries are first offered admission.

Life at BITS Pilani

Education and Curriculum

BITS Pilani has always stood for the best in education and pedagogy. We design our courses to promote deep understanding and learning of concepts and our curriculum is constantly evolving, keeping in sync with global research.

The following are some of the key components of curriculum at our campuses.

Academic Life

The programme structures for all our disciplines have been designed to challenge the brightest minds. Each academic year is divided into 2 semesters, with the following outline:

Degree Programs

We offer educational degrees at First Degree (Undergraduate), Higher Degree (Graduate) and Doctoral Levels.

At the first degree level, we offer B.E (Hons), B. Pharm. (Hons.), M.Sc. (Hons.), and M. Sc. (Tech) degrees.

At the Higher Degree level, we offer M.E., M.Pharm, MBA and MPH Programmes.

Minor Degree: This is a recently offered programme to students from other branches who wish to have a Minor degree in another discipline. The criteria is completion of at least 5 courses in that particular branch. This programme was introduced to cater the increasing interest of students in streams like Finance, Physics, etc

Dual Degree

Under this programme structure, students work concurrently towards earning 2 degrees within a set time frame. Students undertaking dual degrees, complete all the compulsory classes for both the degrees that they are enrolled in.

Dual degree is one of the most popular options amongst the various flexibilities offered under our curriculum.

Practice School

An integral part of academics is Practice school or internship. The program is spread across two phases, one of two months and another five & half months and consists of the most extensive industrial internship.

Thesis Programme

In lieu of the Practice School, students can also opt for the Thesis Programme (Dissertation for higher degree). The thesis programme is an integral part of our academic structure and gives students a chance to understand the challenges of working in a research setting.

Note:

- 1) All first degrees typically take 4-years to complete
- 2) All dual degrees typically take 5-years to complete
- 3) The institute follows a 10-point grading system.
- 4) Minor degrees are offered only to First Degree Students

Our courses are designed to help promote overall learning of concepts "

Year 03

Year 04

Common Courses

Compulsory Disciplinary Courses

Compulsory Disciplinary Courses

Electives & Practice School II

Summer Break

Students usually work as interns in the areas of their interests

Practice School I

Students engage in a 2 month long industry Internship organised by the institute.

Summer Break

Students usually work as interns in the areas of their interests

Students are introduced to a wide range of common courses that set the foundation for the more branch-intensive courses to come. The end of the year sees students take a long summer break of two and a half months that they may utilise by taking up independent internships or NGO work.

The second and third years are academically the most concentrated and rigorous years of the curriculum. Students are taught their Compulsory Disciplinary Courses which go in depth and explore the finer points of the branch of their choice. Laboratory courses are more intensive than ever with numerous evaluation components to complement the lecture classes. Projects and design assignments test the application skills of each student.

The students take up discipline electives as well as humanities and open electives which give them an all round and holistic development. Apart from these, students also take up certain electives and disciplinary courses of a particular field to be eligible for a minor degree.

The first semester of the fourth year sees half the students working off campus for the second phase of Practice School, while the other half of students remain on campus and take a number of elective courses. With the flexibility of taking courses from across branches, these courses allow students to explore their interests. During the second semester this half goes out to complete their PS 2 while the first half comes back to campus to complete their degree.

Campus Life

Learning outside the classrooms

“

An enriching campus life for students has always been our major focus”

The institute is fully residential with hostel accommodation provided to almost all students.

Infrastructures like Students Activities Centre (SAC), Gym-Grounds, Museum, Observatory and Central Library are hot spots of activities round the year.

Students also get to participate in the activities of various hobby clubs, Recreational Activity Forum, Academic Counselling Cell, Senate, Entrepreneurial cell, National Service Scheme etc. pursuing their specific interests. Every campus has an empowered Students' Union

thus enabling students to participate in administrative roles. Students also plan, organize and manage various national and international level cultural and academic festivals.

It is a great experience to be working in groups that exposes students to a completely different aspect of problem solving from the one that they learn in the regular course of academics.

Practice School

Internship is organized by the Institute for all students. Students are evaluated and graded on their performance”

The program is spread across two phases, one of two months and another five & a half months and consists of the most extensive industrial internship.

The program is unique to BITS Pilani. No other university in the country has such an extended period of on-the-job training for its students as a part of its curriculum.

It gives students an exposure to the real challenges that they would be facing while working in the Industry. Practice School stations are over 400 in number and are

spread throughout India and abroad, covering various sectors

The intensity and rigour of the Practice School Programme makes our students ready to take on work life challenges.

Our Campuses

Pilani Campus

Our flagship campus has a historic legacy of more than 50 years. Also known as Vidya Vihar, it is situated outside the town of Pilani, Rajasthan, the hometown of the Birla family.

The city is located 200 kms west of Delhi and 220 kms, north of Jaipur. Covered with wooded paths and spread over 328 acres, the campus is self contained and houses all the amenities and buildings that befit an institute of international standards. The programmes are fully residential with 11 hostels for boys and one hostel complex for girls. Around 4500 students live on campus along with 400 faculty members, their family and a vast pool of support staff.

The campus also boasts of a magnificent library complex with a floor area of 65,000 sq. ft and a rich collection of more than 2,30,000 volumes of books and manuscripts.

An intellectual powerhouse, the campus has successfully attracted healthy amounts of research funding from government grants and private bodies. The research facilities are wide ranging, with a number of laboratories focussed on all aspects of science and technology. The campus boasts of a

state-of-the art network that provides connectivity to the entire institute.

The institute has embarked on a journey to become one of the Leading universities in the world via a new strategic plan called 'Vision 2020'.

Covered with wooded paths and spread over 328 acres ”

K K Birla Goa Campus

Nestling in the lap of verdant hills, overlooking the Zuari River and located 5.5.kms from the Goa airport along the national highway 17B , BITS Pilani, K K Birla Goa Campus is spread over an area of 180 acres. Established in 2004, the campus offers 11 First Degree, 6 Higher Degree and Ph.D. Programs to 675 students admitted every year. About 2400 students and 170 faculty members live in this fully residential campus known for its vibrant, dynamic, multicultural and intellectual environment.

Within a short span of nine years, the Campus has set up state-of-the-art infrastructure housing a number of spacious laboratories, modern classrooms, a well equipped library, a magnificent auditorium , world class sports facilities and campus-wide connectivity—to name a few. The innovative education system of BITS Pilani University coupled with the energizing atmosphere and such infrastructure facilities has been attracting the brightest students and faculty to this Campus.

About 21 research projects funded by various government departments and private agencies in the areas of biosensors, fuel cells, nanomaterials, polymer chemistry, pollution control, bioremediation, composite materials, have been taken up by the faculty of Goa campus. While the academic community engages itself in bringing out its best in teaching, research and administration, the

The campus has become an intellectual hotspot ”

students keep themselves occupied not only with academics but also with a plethora of extracurricular and co-curricular activities, thereby preparing themselves for their professional career ahead .

With all its innovative and earnest endeavors, BITS Pilani, K K Birla Goa Campus has carved a niche for itself not only in Goa but also across the nation and continues its

journey towards excellence.

Hyderabad Campus

Established in 2008, BITS Pilani Hyderabad Campus, spread over an area of 200 acres in Jawahar Nagar, Shameerpet Mandal, is graced by natural beauty on the precincts of urban forests. It is 27 kms from Hyderabad city and 70 kms from Rajiv Gandhi international airport.

The campus has been equipped with state-of-the-art infrastructure surrounded by its scenic beauty. It includes spacious laboratories, furnished classrooms, beautiful & sophisticated library, air-conditioned lecture theatres and network infrastructure, coming together to make BITS Pilani Hyderabad a self-contained campus that students community dream of, for higher studies. The latest addition to infrastructure of this campus is an auditorium with a capacity 2550 seats which is perhaps the most sophisticated in the state.

Around 800 bright students are admitted every year to the first degree, higher degree and doctoral programmes. The campus is fully residential housing over 2700 students, and over 150 staff members. The academics combines extensive research, training and industry experience to offer a comprehensive education to students. It has got over 40 active research projects on campus most of which are backed by prominent funding agencies. A TBI (Technology Business Incubator) has also

The campus has set up state-of-the-art infrastructure ”

been established with financial support from DST (Department of Science and Technology).

Campus life is quite vibrant and stimulating Student calendars are filled with a healthy mix of extracurricular activities facilitated by various clubs and departments. There is a culture of free coupled with a holistic

environment for multidimensional growth of students who are trained to be innovators, great professionals, and entrepreneurs of tomorrow.

Dubai Campus

Dubai Campus is the offshore campus of BITS Pilani and is one of the largest engineering institutes in the UAE. It has the distinction of being the first offshore campus of any Indian Higher Education Institution. The Campus was established in the year 2000 to offer high quality technical education to students in UAE and the neighboring countries. While remaining loyal to the core values of the parent institute, Dubai Campus has achieved great prominence among the region's educational institutions by adapting itself to the diverse milieu.

Located at the Dubai International Academic City (DIAC), the Campus is an éclat of great achievements. The Institute owns an impressive campus and separate hostels for men and women.

It provides latest technology, learning tools, modern laboratories, and a conducive environment to the students to become top technocrats, professionals, entrepreneurs, leaders or researchers and responsible global citizens.

Students have the opportunity to participate in a remarkable range of activities: from academic courses taught by accomplished professors and opportunities for research, independent study and public service to an

The campus has set up state-of-the-art infrastructure ”

extraordinary breadth of extracurricular activities. Several meritorious students have won scholarships for higher studies and secured admissions in world class universities. They have also been acclaimed at various international technology fora for presenting groundbreaking models/ Inventions/ research papers. While Dubai Campus has consistently excelled on the

academic side, it has always remained conscious of its social responsibilities. The Institute routinely engages the community at various levels. It has been hailed for its many social initiatives like blood donation drives, clean up drives and participating in various environmental campaigns organized by local bodies.

Process Driven Placement System

Most of our students have their career paths charted much before graduation ”

The placement scenario at all our campuses has always been extremely positive. Most of our students have their career paths charted much before graduation. Almost 500 students from the Pili campus, 300 from K K Birla Goa Campus, 300 from the Hyderabad campus and around 200 students from Dubai campus are available for placements every semester. Almost 100% succeed in securing a job.

Over 250 reputed companies visited our campuses in the previous placement season of 2014-15, a big number of whom were repeat visitors. Over time, our placement

process has been refined to make recruitment as simple as possible for students and companies alike. A team of dedicated placement committee volunteers work to ensure the smooth functioning of the placement process. The team is headed by a Placement Coordinator, assisted by a Pitching Head, a Logistics Head and a team of around 50 volunteers in each semester.

Two Placement Seasons in a year

Roughly half of the out going batch avails placement in first semester and the other half in the second semester.

Semester I : August to November
Semester II : January to April

CTC-wise distribution of placed students

Why Recruit from BITS Pilani

only merit and thus offer no quota

curriculum is constantly updated to

programme exposes them to real life

made part of the class-room

01 Stringent student selection

All our students enter the institute after proving themselves first at school level and then again at BITSAT. We believe in rewarding only merit and thus offer no quota of any kind.

02 World class curriculum and faculty

A large number of our faculty members are Ph.Ds and are actively involved in research and journal publications. Our curriculum is constantly updated to reflect the latest in technology and research.

03 Students with experience in industry

The Practice School programme ensures that every student has spent over 7 months working in industry even before graduation. The programme exposes them to real life applications of their course work and teaches them to work in a collaborative environment. The Practice School gives students the vital experience needed to adapt quickly to careers in industry.

04 Balanced personalities

We believe wholeheartedly in helping students develop to their full potential in every field of their interest. Soft skills development is made part of the class-room experience through presentation and open ended learning components. Extracurricular activities, student managed clubs and events give them further avenues to express themselves and develop skills beyond academics.

05 Stellar ratings

We have consistently performed well in many surveys of educational institutes. We have been awarded the highest grade, A and one of the highest institute CGPA's 3.71 out of 4 by the NAAC after a combined assessment of all the campuses. We have also been ranked as the best private engineering university of India and 6th best overall by Outlook magazine. The magazine also ranked us No. 1 in terms of personality development.

06 Extremely successful alumni

Renowned scientists, successful entrepreneurs and managers and leaders of society, our alumni have made us proud time and again. Alumni are actively engaged with the institute and with the students, motivating them to perform and excel at whatever they do.

07 World-class infrastructure and technology

BITSConnect 2.0 is a multi-million dollar project that envisions bringing state-of-the-art telepresence and inter-connectivity to all four campuses of BITS Pilani. Students are equipped with better understanding of subjects as they can attend the lectures taken by faculty across all four campuses. It will enable remote learning and participatory coursework, collaborative research and remote recruitment. BITSConnect 2.0 is a giant step for BITS Pilani in the direction of becoming a world class university.
