## PULER

People United for Law, Education and Rehabilitation or PULER is a student run initiative in the University which was established in 2009 with the objective of promoting legal awareness among citizens, ensuring education to the underprivileged and for the proper rehabilitation of the delinquents in the society. The students adopted the nearby village of *Mindori* and has been engaged in educating the children of the village and have been taking regular classes for all age groups. In addition to the regular classes, the members also organize weekly activities such as drawing, painting, singing, dancing etc. as well as computer training in the University's computer lab to ensure all round development of children at Mindori. PULER has also organized camps for AIDS awareness, blood donation and undertaken legal literacy programmes in the colleges of Bhopal. On the 2nd December, 2012, the members of PULER organized 'Run for Bhopal', a run organized in memory of the Bhopal Gas Tragedy victims, in which, more than a thousand citizens from all over Bhopal participated to show support for the victims.

## Sports Committee

The Sports Committee of the University has been active in retaining a vibrant sporting culture in the University. The cell hosts the annual sports fest '*Virudhaka*' which sees participation by law schools from across the country. The society also organises leisure activities such as rock-climbing, zip-lining and paintball to give the students a break from the hectic academic schedule.

**Media Law Cell, Cell for Consumer Studies, Centre for Human Rights and Justice** are cells which were established more recently and are involved in research and organisation of various activities relating to their respective fields of law.

# Placement Coordination Committee

The Placement Coordination Committee (PCC) was set up with the purpose of acting as a transparent, credible and accountable interface between prospective employers and graduating students. What started as a modest enterprise has today become an integral part of the system adopted by the University. This link does not sever after coordinating placements, but extends to coordinating careers by building a strong alumni base and by sharing information and experience. The PCC is also engaged in coordinating internships for the students. In fulfilling its objective of meeting functional knowledge and inculcating specific skills amongst the students, the PCC:

1. Organizes weekly round-table conferences for the graduating batch chaired by a guest lecturer or a faculty member.
2. Maintains a catalogue of recent developments in the field of law to generate awareness amongst students.
3. Organizes workshops and seminars conducted by various luminaries who help the students in preparing themselves for the placement process, facing interview boards, résumé writing as well as for higher studies.
4. Organizes regular career counselling and group discussion programme for the graduating batch.

## PLACEMENT PROCESS

Placement at NLIU is a holistic process which commences in the month of August. It not only acts as an interface between prospective employers and graduating students but also provides an opportunity to the recruiters to meet the faculty and students on the campus.

The recruiters are invited for the pre-placement talks (PPT) highlighting the salient features of their organisation, job profile, remuneration, terms and conditions of employment and other relevant information. The recruiters are urged to indicate their preferred dates for such talks to the PCC either by e-mail or telephonic communication a week prior to commencement of the PPT week.

In furtherance of the process, the organisations have to register themselves with the PCC with their preferred dates in the final placement schedule. Recruiters are welcome to follow their own recruitment process, broadly within the framework of Group Discussions, Written Tests and Personal Interviews. Organisations can also opt for telephonic interviews and interviews via video-conferencing. The PCC works to ensure that final recruitments are conducted in a fair and transparent manner so as to maximize the interest of both the students and recruiters.
