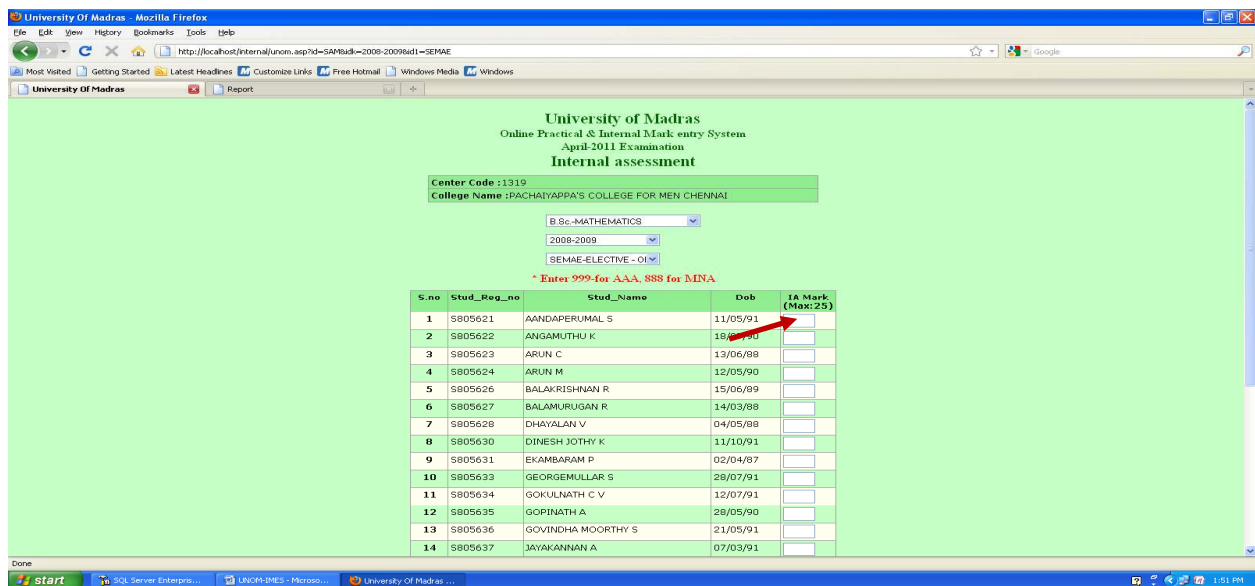

Fig.10: Screen for the marks entry

After entering the Internal mark, Click the button Save and Continue. If we enter the marks more than the maximum, System shows the warning. For example in Sl.no 15 marks 32 is entered instead of 15. But the Maximum mark is only 25, so the system shows the alert as shown below.

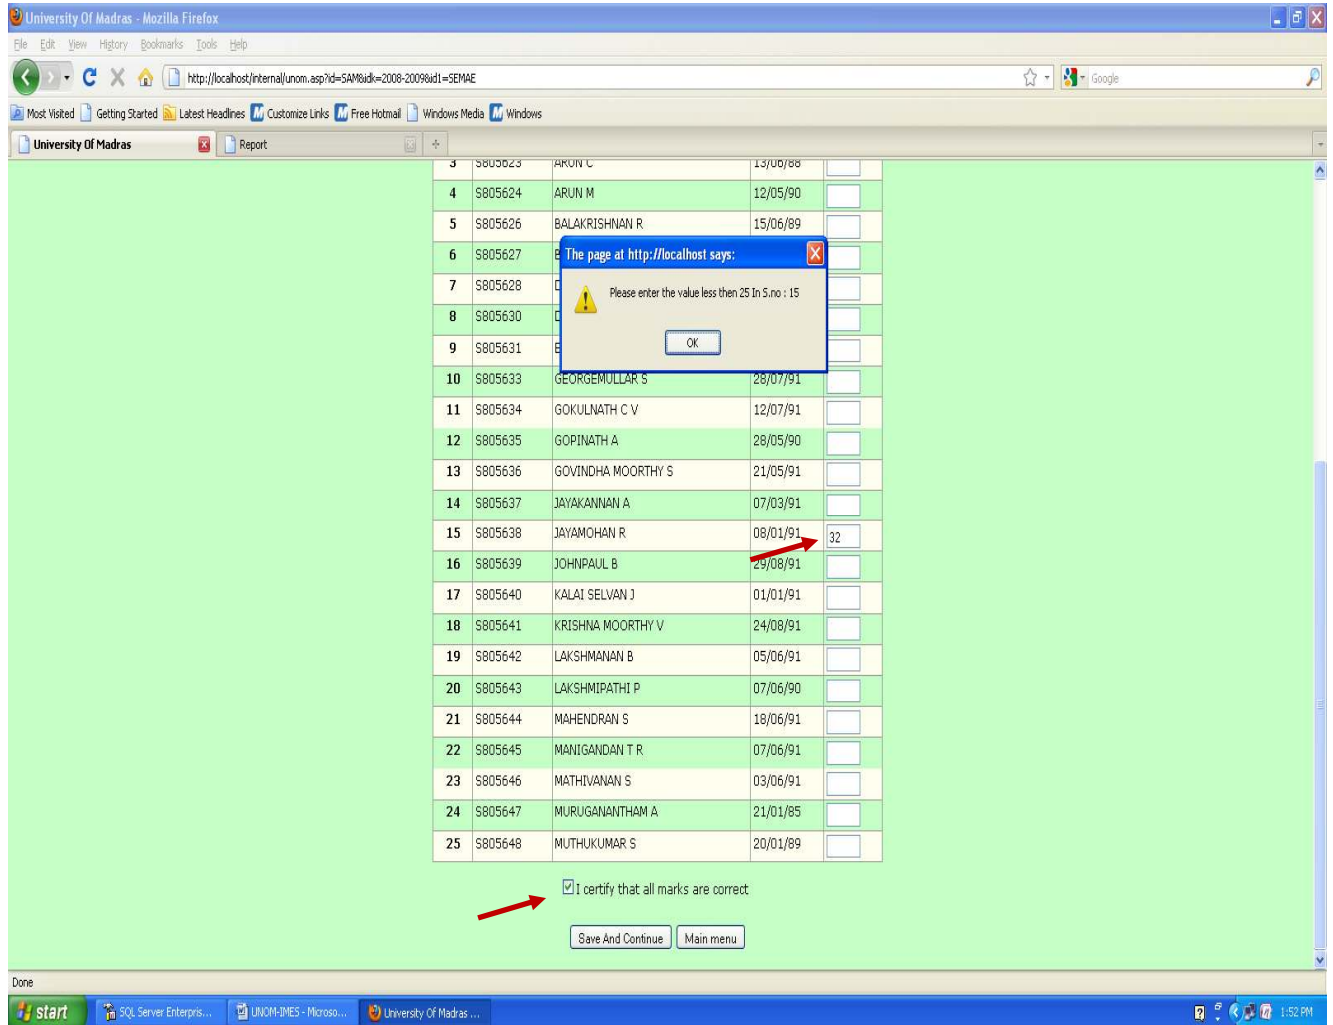

Fig. 11: "alert" screen if more than 25 is entered.

After entering the correct mark, click the "Save and Continue" button. System ask to certify all marks are correct . Once again check the marks and click the check box then click the "Save and Continue" button Now the marks are uploaded into database and return to the same screen. In this screen, the registered student whose correct internal marks have been entered will not appear in the list and the screen shows only the remaining students whose marks to be entered. In case, non numeric data is entered, an alert message as "Please enter the numeric value only" will appear.

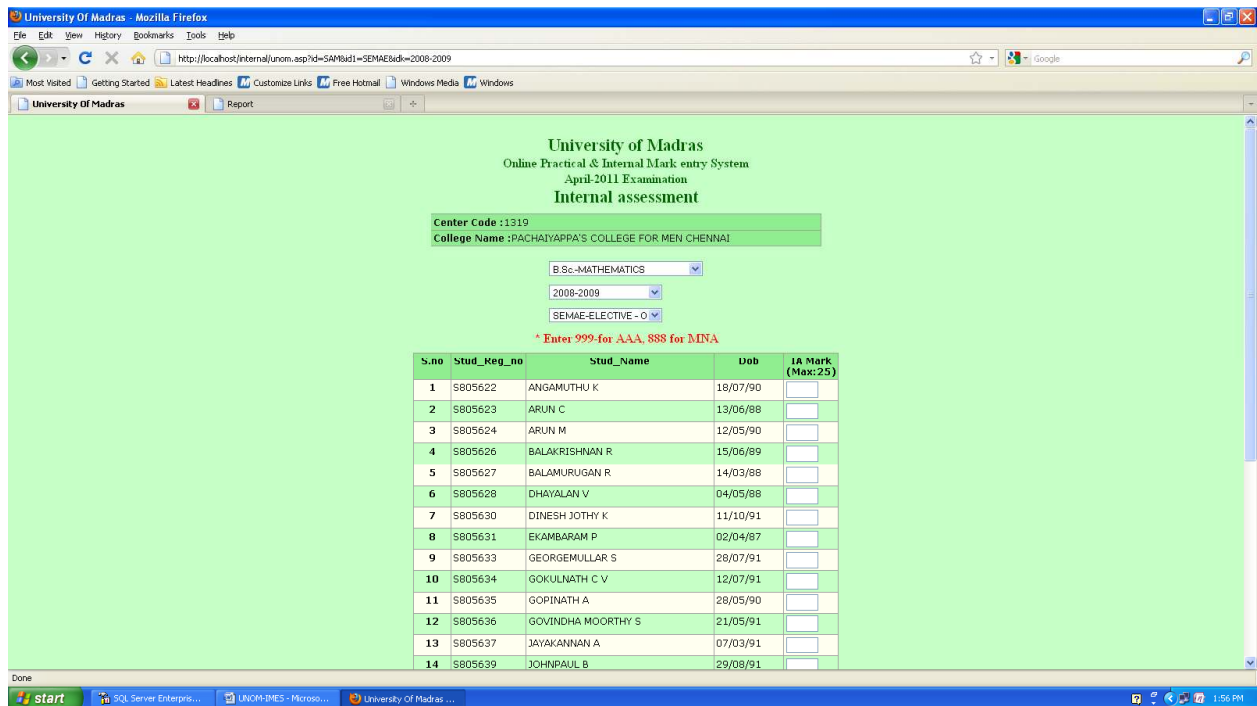

Fig.12: Screen for the remaining students marks to be entered.

NOTE: The above steps are same for Practical Mark entries, soft skills and NME. But the alerts are depending on the maximum mark which is shown in the top of the mark entry column.
