#### Regulations Governing the Choice Based Credit System (Semester Scheme) in the Undergraduate and Integrated Masters Degree Programmes in the Faculties of Arts, Science and Commerce

(Framed under Section 44 (1) (c) of the KSU Act 2000)

#### Preamble:

New challenges in higher education have led to a paradigm shift in reconceptualising this sector in terms of what constitutes Higher Education and what the goals of this education ought to be. Traditional educational systems rely on information based knowledge. However the shortcomings in collapsing the task of knowledge acquisition to largely an exercise in imparting information are increasingly felt in society with profound consequences. The need of the hour is to move towards a more holistic approach that integrates providing of skills and specialized training with the values necessary to make a student into a better human being and a useful member of society. Thus the role of Universities and colleges in the 21<sup>st</sup> Century extends far beyond traditional knowledge creation and dissemination to encompass new expectations for innovations that will have broader social and economic benefits. Bangalore University wishes to initiate qualitative and substantial changes in its undergraduate and post-graduate programmes, to cater to the needs of students with diverse talents, aspirations and professional requirements. The students will have the option to exit after 2-years with award of Advance diploma (optional). The successful completion of 3-years of the undergraduate programme would lead to the award of the bachelor degree, as at present.

The University Grants Commission has formulated Guidelines for adoption of uniform Choice-Based Credit System (CBCS) across all the universities in the country and asked all the universities to implement them in all the under-graduate and post-graduate programmes. The State Higher Education Council has also communicated general guidelines in this regard.

The credit based semester system provides for flexibility in designing curriculum and assigning credits based on the course content and hours of teaching. The choice based credit system provides a 'cafeteria' type approach in which the students can take courses of their choice, learn at their own pace, undergo additional courses and acquire more than the required credits, and adopt an interdisciplinary approach to learning. Thus the Choice Based Credit Systems make the product of the university at par with the global practices in terms of academic standards and evaluation strategies, retaining the present structures of the undergraduate and post-graduate programmes. In the emerging scenario of Internationalization of Indian Higher Education, it is imperative that the Universities in India should follow this system so that the mobility of their products both within and across the geographical jurisdiction becomes possible. Hence the Bangalore University thought it fit to introduce the Choice Based Credit System in all the Undergraduate and Post-graduate Programmes in the Faculties of Arts, Science and Commerce, effective from the academic year 2014-15. For multifaceted development of students, curriculum emphasizes on wide variety of courses to enhance their knowledge in several core courses including those in languages and subjects in Arts, Science and Commerce, and value-based and skill development courses.

#### The Salient Features of the Credit Based Semester Scheme:

Each course shall carry certain number of credits. Credits normally represent the weightage of a course and are a function of teaching, learning and evaluation strategies such

as the number of contact hours, the course content, teaching methodology, learning expectations, maximum marks etc. In the proposed programs, generally 1 to 2 hours of instructions per week in a semester is assigned one credit. On these basis, generally, a three-year six-semester degree program will have 104 credits and a five-year ten-semester master's degree programme will have 204 credits.

The general features of the Credit Based Semester Scheme are

- a) The relative importance of subjects of study are quantified in terms of credits.
- b) The subjects of study include foundation, core and skill development courses
- c) The programme permits horizontal mobility in course selections.
- d) The students shall take part in co-curricular and extension activities.
- e) The declaration of result is based on the Aggregate Percentage of marks obtained as well as on Aggregate or Cumulative Grade Point Average (CGPA) earned.

## **Definitions of Key Words:**

A course may be designed to comprise lectures/ tutorials/laboratory work/ field work/ project work/ vocational training/viva/ seminars/term papers / assignments / presentations/ self-study etc. or a combination of some of these.
- 4. Credit Based Semester System (CBSS): Under the CBSS, the requirement for awarding a degree /diploma /certificate is prescribed in terms of number of credits to be completed.

It is ratio of total credit points secured by a student in various courses registered in a semester and the total course credits taken during that semester. It shall be expressed up to two decimal places.
- 12. **Cumulative Grade Point Average (CGPA)**: It is a measure of overall cumulative performance of a student over all semesters. The CGPA is the ratio of total credit points secured by a student in various courses in all semesters and the sum of the total credits of all courses in all the semesters. It is expressed up to two decimal places.
- 13. **Transcript or Grade Card or Certificate:** Based on the grades earned, a grade certificate shall be issued to all the registered students after every semester. The grade certificate will display the course details (code, title, number of credits, grade secured).

 Table 1: Table of Subjects of Study, Marks and Credits for B.A / B.Sc Degree

## **Computation of Semester GPA:**

The Semester Grade Point Average shall be computed by dividing the sum of the Credit Points (CP) of all the subjects of study by the maximum credits for the semester. The credit points are in turn calculated as the product of the grade points earned in the subject and the credits assigned to that subject.

**SGPA** (Si) =  $\Sigma$ (Ci x Gi) /  $\Sigma$ Ci

where Ci is the number of credits of the  $i^{th}$  course and Gi is the grade point scored by the student in the  $i^{th}$  course.

Subject	L1	L2	<b>S</b> 1	S2	<b>S</b> 3	FC	CC/E A	Total
Max. Marks	100	100	150	150	150	100	50	800
Marks Obtained	67	78	118	125	141	85	39	654
Grade Point (G <sub>i</sub> )(1)	7.0	8.0	8.0	8.5	9.5	8.5	8.0	
Credits (C <sub>i</sub> )(2)	2	2	3	3	3	2	1	16
Credit Points (CP)(1x2)	14.0	16.0	24.0	25.5	28.5	17.0	8.0	133.0

## **I Semester Marks:**

Semester Aggregate Marks: **654 / 800 = 81.75%** 

Classification of Result: First Class Exemplary

Semester Grade Point Average (GPA)

= Total Credit Points/ Maximum Credits for the Semester

= 133.0 / 16 = **8.313** 

Semester Alpha Sign Grade: A+

## Calculation of Aggregate or Cumulative GPA (CGPA):

The aggregate or cumulative SGPA (CGPA) at the end of the sixth semester shall be calculated as the weighted average of the semester grade point averages. The CGPA is calculated taking into account all the courses undergone over all the semesters of a programme, i.e. The CGPA is obtained by dividing the total of semester credit weightages by the maximum credits for the programme.

 $CGPA = \Sigma(Ci \times Si) / \Sigma Ci$ 

where Si is the SGPA of the ith semester and Ci is the total number of credits in that semester.

An illustration is given below.

Semester	Ι	II	III	IV	V	VI	Total
Total Marks / Semester	800	800	800	800	1000	1000	5200
Total Marks Secured	654	640	717	698	902	911	4522

Semester Credit Weightages, 3x4	133.0	128.0	143.4	139.5	180.5	182.0	906.4

Aggregate Percentage of Marks = 4522/5200 = 86.96 %

Classification of Result: First Class Exemplary

Aggregate or Cumulative Grade Point Average (CGPA)

= Total of Semester Credit Weightages / Maximum Credits for the programme

= 906.4 /104 = **8.715**.
