

GREEN CHANNEL COUNTER

The Bank had launched 'Green Channel Counter'(GCC) facility on State Bank Day (01.07.2010), at 57 select branches of the Bank spread across the country. This was an innovative step taken by the Bank towards changing the traditional way of paper based banking in a limited way, to card based 'Green Banking' focusing on reduction in paper usage as well as saving transaction time. This is a pioneering concept which would save both paper and time resources.

At the dawn of State Bank Day 2011 (01.07.2011), and on the First Anniversary of the launch of GCC, this facility has been made available at 5000+ branches across the Country. During this journey of one year the Green Channel Counter facility has earned many accolades. At the IBA Banking Technology Awards – 2010, SBI won the "Best Customer Initiative" Award for the Green Channel Counter. In addition, this has led to the saving of enough papers to avoid felling of approximately '5 Trees'.

As such, the GCC aims at providing our Customers with a simple, secure and quick way of executing daily Banking transactions. It enhances Customer ease as there is no need to remember the 11 digit account number or carry passbook, fill in pay in slips / withdrawal forms, etc. Only the ATM cum Debit Card and PIN is needed to identify a Customer and his / her Bank Account.

It is a counter manned by a Teller where a Transaction Processing Device(TPD), similar to a PoS machine, is attached to the terminal. Customer swipes the Shopping cum Debit Card, selects a particular transaction and enters the amount and the PIN. Post authentication, the transaction gets transferred to the Teller's terminal who enters denominations of cash to be paid / received, then pays / receives cash and completes the transaction. The Customer is provided with a printed receipt generated from TPD. This receipt is much smaller than traditional voucher. Moreover, as only one receipt is printed per transaction, there is zero paper wastage.

Three types of transactions have been enabled through this facility viz Cash Deposits, Cash Withdrawals and Funds Transfer. The transaction amount has been fixed as Rs 40,000/-.

Customers can use the Green Channel Counter without queues and without taking the token. They may simply walk up to the Counter, Swipe their card and execute the transaction. Also it has been observed that while normal branch banking transactions take 2 to 4 minutes for completion, a transaction routed through the GCC takes less than a minute.

Thus the Green Channel Counter is not only an endeavour to offer ease of transactions to all Customers especially senior citizens, but also an environment friendly initiative.

Fees/charges – Normal Banking Charges would be applicable.

We welcome you to use this state-of-the-art facility and be part of our 'Green Banking' initiative.
