| 48 | MBA ^d | 20 | Admission through PG CET. However, for unfilled seats, the university conducts a separate entrance test. | | | | | | | | | | | | | | | | | | | |

Note:

- a. NCC, NSS, Sports, CDP (Children/Dependents of Defence Personnel), PwD (Person with Disability), KM (Kannada Medium from Standard I to X) and GdM (Gender Minorities): The seats under special categories are non-transferable, and they are filled only with available eligible applicants. However, if there are no eligible applicants for CDP, the seats shall be transferred to merit-cum-payment seat (Kuvempu University students). In respect of applications received under CFF (Children of Freedom Fighters) quota, the applications shall be referred to the Registrar for necessary orders.
- b. If there are no eligible applicants for seats under Other University (OU, merit seats) and/or Hyderabad-Karnataka (HyK) quota, the unfilled seats shall be transferred to GM seats (Merit). [Note: The seats under OU Quota are at 15% of total merit seats (excluding special categories). Therefore, total number of merit seats in Column - 3 do not include these OU seats].
- c. In the case of MSW, 20 seats are reserved for BSW candidates and 20 seats for multi disciplinary graduates.
- d. Admissions for MCA and MBA courses are made through PG CET conducted by KEA, Bengaluru. However, a separate Entrance Test will be conducted by Kuvempu University to fill up unfilled seats.
- e. Under merit-cum-payment category,
 - (i) 3 seats (1:1:1) are reserved for SC and ST students of Kuvempu University, and children of Kuvempu University employees.
 - (ii) Of the remaining, a few seats are reserved for applicants from other universities (after reducing merit seats for OU and HyK candidates).
 - (iii) The remaining seats are for KU candidates.

For example, in the case of M.A (Kannada), there are 10 seats under Merit-cum-Payment quota (3 + 3 + 4) and these 10 seats are shown in the last but one column (in the above table) as '3+3+4'. This means,

- (i) The first three seats are for SC, ST and children of Kuvempu University employees (one each),
- (ii) Next three seats are for OU applicants, and
- (iii) The last four seats are for Kuvempu University graduates.

However,

- If any of these seats fall vacant, the seats shall be transferred to merit-cum-payment seats (Kuvempu University candidates).
- But in the case of SC/ST, the seats are inter-changeable. However, if there are no eligible and willing applicants from both SC/ST categories, the unfilled seats shall be shifted to merit-cum-payment seats (Kuvempu University candidates).
- If there are no eligible and willing applicants from Kuvempu University graduates, the unfilled seats shall be shifted to merit-cum-payment seats (OU students).
- All candidates admitted under merit-cum-payment category are required to pay the actual fee for merit-cum-payment category, prescribed by the University, irrespective of their category/income, *etc.*

Choice Based Credit System (CBCS) – Excerpts from Regulations

The Post Graduate Courses of Kuvempu University are governed by the Choice Based Credit System (CBCS) - **Choice** referring to the flexibility offered to the students for selecting a suitable combination of courses or papers and the **Credit** referring to the unit by which the teaching/course work is measured. CBCS is learner centred by eliciting active participation of teachers establishing close interaction between the teachers and the students that contributes towards quality of education.

(1) Structure of P. G. Programmes: There are four categories of courses *viz.*, Hard Core Courses, Soft Core Courses, Elective Courses and Soft Skill Courses for every P. G Programme.

- Hard and Soft Core Courses are the courses offered by the Department concerned. Each student shall compulsorily undertake project work leading to Project Report. The credits for each Hard Core Course ranges from 3 to 6 and that of Soft Core Course from 2 to 4.
- Elective Courses are the courses offered by other Departments. Each elective course carries 2 credits. Students of all P. G Programmes shall select, study and successfully complete atleast one Elective Course (out of a number of Elective Courses offered by other Departments, List of Elective Courses is given later) each in II and III Semesters earning atleast four credits.

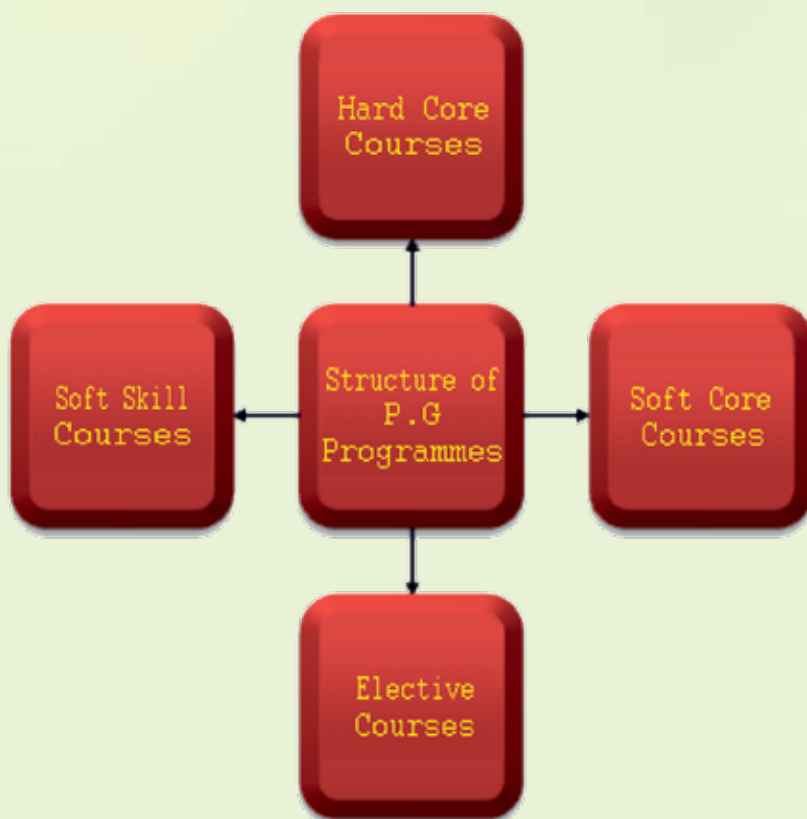

(c) Besides, there are three Soft Skill Courses *viz.*, Communication Skills, Computer Skills and Life Skills. These Courses are offered by the Departments of Studies in English, Computer Science and Commerce respectively for the students of all Departments of P. G Studies. Each of these three courses carries one credit and there shall be no semester-end examination for these courses. However, to successfully complete the Master’s Degree, every student must complete these courses earning three credits within the first two semesters.

(2) Continuous Assessment Programmes and Evaluation

Out of the total marks for each course, 25 marks are earmarked for Continuous Assessment (Internal Assessment) and the remaining 75 marks for the semester-end examination. Internal assessment marks are awarded on the basis of the following components.

| Sl. No. | Continuous Assessment Programme | Maximum Marks |
|---------|--|---------------|
| 01 | Two Session Tests (5 marks per test) | 10 |
| 02 | Seminar/Group Discussion (assessed on the basis of writing, comprehension, communication, articulation, and presentation skills) | 5 |
| 03 | Field Work and/or Assignments | 5 |
| 04 | Regularity and Attendance | 5 |

In the case of elective courses, each elective course carries a maximum of 50 marks comprising 40 marks for semester-end examination and 10 marks for internal assessment. In this case, internal assessment marks are awarded to the students based on a test (5 marks), assignment-cum-group discussion (2.5 marks), and regularity of the students in attending the classes (2.5 marks).

(3) Semester-end Examination and Evaluation: Semester-end examination of three-hour duration for 75 marks is conducted for each of Hard and Soft Core Courses. However, in the case of Elective Courses, the semester-end examination is for 40 marks for 1½ hours for each course. Project Reports and answer scripts of the semester-end examination are evaluated by two examiners (one internal and another external; however, under no circumstances a script/project report is valued only by two internal examiners). The marks awarded to that answer script/project report is the average of these two evaluations. If the difference in the marks between two evaluations exceeds 20% of the maximum marks, such a script/project report is valued by a third external examiner. The marks awarded to that answer script or project report shall be the average of two nearer marks out of the three evaluations. In the fourth semester, the project report shall be evaluated for 75 marks by both internal and external examiners. And for the remaining 25 marks, project viva-voce examination shall be conducted by the Board of Examiners. For the purpose of evaluation, answer scripts are coded. There is also a provision for challenge valuation.

(4) Grading and Declaration of Result

- (a) **Grade** means an index of conversion of marks secured by a candidate after completing the prescribed credits and relevant examination in each course
- (b) **Grade and Credit Points** are computed for each course considering the marks secured and the credits earned in each course. **Grade Points** are computed by dividing the marks secured by the candidate in each course by 10% of the maximum marks for that course. And **Credit Points** are determined by multiplying the Grade Points in each course by the credits of that course. Both the Grade Points and Credit Points shall be computed for each course in each semester
- (c) **Grade Point Average (GPA)** is computed and given to each candidate based on his/her semester performance. This is determined by dividing the sum of credit points earned by the student in all the courses of a semester by the total number of credits for which the candidate has taken examination in that semester
- (d) **Cummulative Grade Point Average (CGPA)** is computed for the whole academic programme considering the aggregate of Credit Points of all the semesters earned by the student and dividing this sum by the total credits of all the semesters
- (e) The CGPA obtained as above is the base for the determination of Grade and for the declaration of the result as follows.

| CGPA | Result grade | Description of Result Grade |
|---------------|--------------|------------------------------|
| < 4.50 | D | Fail |
| ≥ 4.50 < 5.00 | C | Pass |
| ≥ 5.00 < 5.50 | B | Second Class |
| ≥ 5.50 < 6.00 | B+ | High Second Class |
| ≥ 6.00 < 6.50 | A | First Class |
| ≥ 6.50 < 7.50 | A+ | High First Class |

Department of Studies in Mathematics

The Department was established in 1975 as part of the P.G. Centre of the University of Mysore at Shankaraghatta and became part of Kuvempu University in 1987. The Department has been harnessing precious human resources for the overall development of society through the pursuit for

excellence in the area of Mathematical Sciences. As a part of the university-industry interaction, research originations like TIFR, IISC, IIT, etc., conduct seminars, symposia, workshops and conferences to provide platform for scientists and industrialists to discuss issues that benefit the students and teachers. The Department established Mathematical Society in 2008. The Society helps students in getting the placements, provides facility for research activities, and funds economically weaker and meritorious students to purchase books. The department is actively engaged in research in the areas of differential geometry, fluid mechanics, and certain areas related to simulation of fluid flow using computer graphics. The Department trains the students to fulfil the current needs of software companies. The credit of award of first Ph.D of Kuvempu University goes to Mathematics Department.
