*I take pride in introducing Veer Narmad South Gujarat University which is one of the leading A grade universities of Gujarat. The university has been able to carve a niche as a temple of wholistic education where you experience the joy of learning. The university was established in 1966 with the noble aim of providing quality education to the South Gujarat region. The University has completed more than 50 years of its luminous existence during which the institution has disseminated quality education to aspiring young minds who would, in due course, contribute towards nation building. Over the years, the University has blossomed into an institution of excellence and in recognition of its valuable contribution; the university has been accredited with "A Grade" by National Assessment and Accreditation Council (NAAC).*

*I am really overwhelmed to welcome all of you to academic year 2019-2020. As we are on the verge of completing second decade of 21st century, it is our collective responsibility to contribute to the country's long cherished vision 2020 of being the world leader. India's growth story has left everyone baffled with its lightning pace. The time has come for the ancient spiritual mentor and mediaeval world leader to occupy its rightful place of being a superpower. For the first time in the history, India is poised at a juncture where the demography and the global economic matrix predict the favorable climate for India's ascent. If we put in place ecosystem which is conducive to growth, we are not far from achieving the vision 2020.*

*In my honest opinion as an academican, education is the topmost priority today. After all, no society has been able to bring about transformation without significant contributions from creative and thinking minds. I strongly feel that there is a dire need for gargantuan educational reforms. It is said a society is as good as its education. Undoubtedly, education is indispensable to upward mobility for any society. It is here that the universities have a role to play by putting in place all-encompassing reforms which benefit all the stake holders of education.*

*I assure you that Veer Narmad University is committed to its vision and mission of providing quality education. During last two years, the University has witnessed all-encompassing massive reforms at all the levels taking place for the first time. I can proudly say that due to these reforms the university now functions more transparently and efficiently than ever before. It is noteworthy, here, that the University has already started embracing ICT enabled DIGITAL revolution by developing ERP for effective data management and governance. The University provides most of the services online; for instance, online results, online payments and online applications among otheIn short, most of these services are available on a click of the mouse anytime anywhere. Now we can proudly say that as a university, we are in tune with national priorities in governance i.e. Digital India and Cashless India. Further, the university has revamped its sports infrastructure to match international standards. I promise to all the stake holders that the University will continue to strive for excellence with same rigor and vigor in the time to come.*

*I take this opportunity to invite all the stake holders of the university to participate in my mission to take our University to greater heights.
