Reasons Why Students consider FIITJEE The Best in IIT-JEE & Beyond...

The Value System

FIITJEE Value System revolves around Truth, Transparency & Commitment. Whatever we think, we say & whatever we say, we do. We present to you what we actually are.

The Quality

We never compromise on quality. Our penchant and pursuit of quality is evident in our every activity, in all our actions, at all times, everywhere.

Best Faculty

Every institute for IIT-JEE training worth its name tries to get a FIITJEE faculty. We are the only institute that follows a very strong, systematic & objective selection and training process before a teacher becomes a FIITJEE faculty. **FIITJEE has a pool of more than 1200 very competent full-time faculty** ensuring you get highly effective teachers in all the subjects throughout your studies.

Pattern Proof Teaching Methodology

Testing pattern of IIT-JEE keeps on changing but the key aspect of the test is to judge the analytical ability of the aspirants alongwith the understanding of fundamentals.

Students having sound understanding of fundamental concepts & practicing persistently with all types of problems will always outperform students who are only confining their preparation to the pattern rather than understanding the concepts.

FIITJEE has always been preparing students in a fundamental way. **FIITJEE has been teaching in a comprehensive way so that students do well in IIT-JEE (irrespective of the pattern), Boards, KVPY, Olympiads and other Engineering Entrance Exams.** For the last 5 years our students have been securing admissions in the Top 10 US Universities where admission is based on the performance of School + Last Board Exam and SAT-I, SAT-II, AP Exams & TOEFL.

Comprehensive Study Material

The fact that every publisher / institute refers to our Study Material & JEE Solutions while creating their books / solutions / study material is a testimony to our quality. There is a bit of FIITJEE in everybody associated with IIT-JEE, be it students, coaching institutes or publications. Ask any student successful in IIT-JEE & explore the truth yourself. **Our Study Material is Pattern Proof** i.e. students are prepared for the IIT-JEE irrespective of any type of pattern.

Enabling Infrastructure

We strongly believe in the fact that the environment in which a student studies in is equally important for effective learning. We ensure our students study in an enabling environment equipped with proper classrooms to keep them stress free.

Reasons Why Students consider FIITJEE The Best in IIT-JEE & Beyond...

Personalized Coaching

Individual attention is given to each and every student irrespective of one's standing in the merit at any point of time. **We never increase our batch size beyond a limit**, this facilitates proper Student-Faculty interaction. Our faculty is always willing to clear doubts of students even individually, if required.

The Winning Methodology

Our Methodology makes the students capable of creatively resolving complex & tricky problems by improving and sharpening their analytical skills & parallel thinking processes. We develop and share the right strategies from time to time to optimize students' output.

Innovative Programs & Concepts

Innovation is the essence at FIITJEE. **PINNACLE, SUPREME & UDAYA Plus Programs are already revolutionizing school education in India.** We are the pioneers in designing a specific IQ Test to test the temperament and potential of a student for IIT-JEE. The student's score in this test helps us judge his / her potential in the beginning itself and the level of input required for his / her success. This makes our Classroom Programs very effective as we know in advance the level of input needed for different students. **FIITJEE is the only institute in India having the capability to predict Rank Potential Index (RPI) / Success Potential Index (SPI)** of a student & constantly encourage our students to emulate them.

The Total Success Approach

Even though our programs aim at IIT-JEE (**now JEE Advanced**), we prepare students comprehensively also for KVPY, SAT, Olympiads, NTSE and all other important Engineering Entrance Exams including AIEEE (**now JEE Main**) / BIT-SAT / VITEEE / CET (Karnataka) / CET (G.G.S.I.P. University) / BVP (Pune) / MHT - CET (Maharashtra) / EAMCET (Andhra Pradesh) / KEAM (Kerala) / UPSEE / MP PET (Madhya Pradesh) / CG PET (Chattisgarh) / RPET (Rajasthan) / BCECE (Bihar) / WBJEE (West Bengal) / JEE (Odisha) / AMUEEE / J&K CET / JCECE (Jharkhand) etc. too.

Research & Development

Our Research and Development team works round the clock to ensure that our teaching methodology, study material and course structure is upto date. This committed team keeps a keen eye on the latest developments and changes in the IIT-JEE {now JEE (Advanced)} / AIEEE {now JEE (Main)} / other prestigious Engineering Entrance Exams / Olympiads / NTSE / SAT / KVPY and swiftly incorporates them in our course curriculum.

The FIITJEE Results

When a student is preparing for a challenging exam like IIT-JEE (now JEE Advanced), AIEEE (now JEE Main), Olympiads, KVPY, SAT or NTSE, he / she wishes to prepare with the best institute. Students know FIITJEE is the best for all of the above competitive exams and more so because of our consistent excellent results.

The FIITJEE Journey

Mr. D. K. Goel

(Founder Chairman and Chief Mentor)

FIITJEE was created in 1992 by the vision and toil of Mr. D. K. Goel, a Mechanical Engineering Graduate from IIT Delhi. We had a very humble beginning as a forum for IIT-JEE, with a vision to provide an ideal launch pad for serious JEE aspirants. Along the way to realization of this vision, we went beyond merely coaching for IIT-JEE. We actually started to make a difference in the way students think and approach problems. We started to develop ways to enhance students' IQ. We started to leave an indelible mark on the students who have undergone FIITJEE training. We started changing lives. And all this was not a sheer coincidence. It was the urge, the compelling desire, to always aspire for perfection and in the process, continuously keep on setting newer benchmarks of excellence, which enabled us and our students to achieve what we have achieved. Today, aiming for the unachievable and continuously raising the bar has become a part of the FIITJEE DNA.

The success of our students was inspiring and so was their faith in FIITJEE. It was this faith that was a catalyst for our venturing into areas beyond IIT-JEE. It was this faith that prompted us to embark on a mission to provide **wholesome school education** to students through FIITJEE Integrated School Programs like UDAYA Plus, SUPREME & PINNACLE, in a way so that there was no need for any type of coaching outside of the school system. In addition to the launch of FIITJEE Junior Colleges in Hyderabad, many like-minded schools across the country joined hands with us in this student centric endeavor to create Ideal School Education platform for students to get admission in IITs & US Universities without stress & tension along with huge success in Olympiads, SAT-I & SAT-II. And it was this faith only that again enabled us to create landmark success in NTSE.

And it is this very faith that has again inspired us to provide a platform for students aspiring for admission to US Universities in form of USA UnivQuest - a comprehensive program taking care of all aspects of the preparation – in the same old, trusted FIITJEE way. Launch of FIITJEE World Schools at Hyderabad is a concentrated effort in that direction, where students will be trained for the best in the world through methodologies and practices that are truly world class. Students in other select cities will also have an opportunity for preparing for admission to US Universities through USA UnivQuest School Integrated Programs to be run in collaboration with our select associate schools.

This Journey from just an IIT-JEE coaching institute, to the most powerful brand in serious education has been exhilarating. However, the Journey is not over yet. For us at FIITJEE, The Journey will never be over... For us, this Journey itself is the destination.

For Students of Class XI, XII & XII pass

Objective Paper

(IQ, Physics, Chemistry & Mathematics)

- 9:30 am - 1:00 pm

Note : Actual duration for answering the paper will be 3 hours. First 30 minutes will be provided for filling up the information on the OMR answer sheet and for reading the examination instructions. For information on how to fill up answer OMR sheet please download "An Introduction on OMR Sheets" from www.fiiitjee.com/fillomr.pdf

Our admission test papers have not been restricted to a certain syllabi to ensure that students are not able to enhance their performance significantly by working only for a few weeks / days. A student who has worked hard in a thoughtful manner with sustained motivation over the years will do better than others. With this we come to know one's real potential for Competitive Entrance Exams over others. Like IIT-JEE / other prestigious competitive exams our tests are low scoring. The technique to succeed is to improve your strike rate i.e. focusing on correct solutions rather than attempting all questions.

Students registering for Admission Test can download Free Sample Papers from our website. Log on to www.fiiitjee.com/samplepapers.htm with your Registration Number and Web Access Code as printed on the Admission Test Hall Ticket. Please ensure that you enter your correct details on the website.

Start Early - Beat the Competition

Serious students aspiring for success with a good Rank in the IITs / other Competitive Entrance Exams understand the importance of starting early in their preparation for IIT-JEE. As the competitive exams have become more competitive now, it is necessary to build a strong fundamental base, as early as possible. FIITJEE's early edge programs are designed to give serious students that extra advantage that can help them get a Top Rank in IIT-JEE / other Competitive Entrance Exams.

- ❖ Gives you more time to adapt to the quantum jump in level of difficulty with better ease as there is more time for understanding and consolidation over a longer spread academic plan.
- ❖ Optimum utilization of time available.
- ❖ Early starters will always have more time before the actual Board & other Competitive Entrance Exams as their course curriculum will finish much before the batches starting later.
- ❖ More time to consolidate on one's performance and for self revision, polishing of examination temperament & removal of last moment doubts. This is very vital to help a student achieve a quantum jump in the IIT-JEE / other Competitive Entrance Exams Rank.
- ❖ As serious aspirants would never like to wait, the competence of the batch starting early would be very high as the brightest/serious of the lot will join at this stage thus giving you better competition you always wanted.
- ❖ Early tests & joining FIITJEE gives you more time for academics, extra inputs for school & board studies and **lower fees**. Students wishing to start early to beat the competition should appear in FIITJEE's earlier Tests.

Building Strong Foundations for a Proud Future

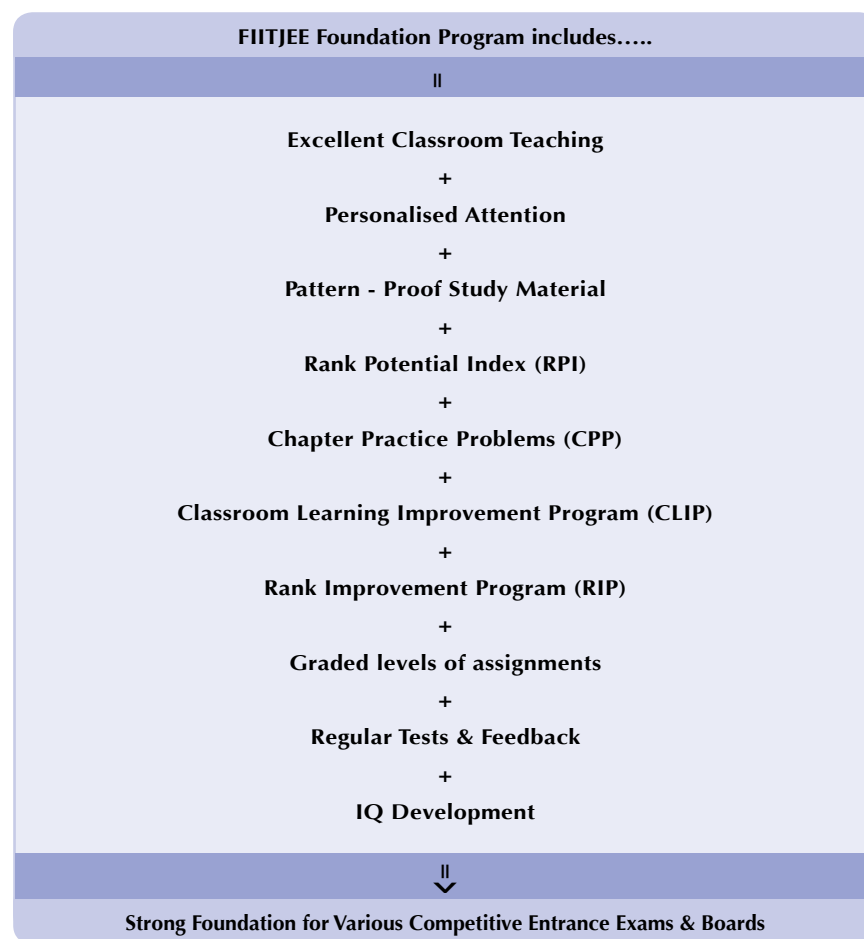

FIITJEE Foundations Major Features of Classroom / School Programs

FIITJEE Foundation Programs are unique in themselves as they ensure the best possible result depending upon the basic potential of the student and his/her ability to work hard.

The methodology developed by us and which is followed in our academics lays emphasis on making the students imbibe the fundamental concepts of Science & Maths and on sharpening their analytical skills and parallel thinking process.

This makes them capable of creatively resolving complex and tricky problems by mere application of basic concepts. FIITJEE's experience is that the IQ level of the students is raised significantly in the process.

FIITJEE Foundations

FIITJEE Integrated School Programs *(Not for Profit Initiative)*

FIITJEE Integrated School Programs are a dream of FIITJEE team to bring renaissance in the Indian Education System and we try to move towards Ideal School Education. Being a private initiative at highly subsidised course fee, the seats for all these programs are limited and have the capability to help students achieve - Overall Academic Excellence in Boards, State level science & scholarship tests, various competitive and scholastic exams in a single system within regular school hours thus bringing in tremendous focus & reduce undue stress.

What is an Integrated School Program ?

- A study program with a synergistic approach to both the School studies as well as various competitive & scholastic exams.
- A study plan that will ease out the pressure of time (or the feeling for the lack of it) for the student, unlocking lots of extra time, giving enough time for self studies, which a student would not have got otherwise and also giving him sufficient time for selfstudy, co-curricular activities, sports, social activities etc. which are so important for his / her personality development.
- A program that eliminates the opposite pressure forces on the student.

Benefits to the Students

- Students enrolling in this program will have an integrated study plan.
- The studies for both School as well as various competitive & scholastic exams will be controlled and executed by FIITJEE.
- This would mean that the student would not be going through two separate schedules and classes for the same subject.
- Complete Lab and other support will be provided to the students.
- Integrated School Programs would provide thrust for the students to participate in co-curricular activities, sports, social activities etc. which are so important for his / her personality development.

FIITJEE & the Associate School will also aim for :

1. Proficient & confident communication ability for each & every student.
2. Inculcating sports / exercises as a discipline for physical fitness throughout the life for each & every student.
3. Improvement of memory & IQ, mental, physical & spiritual well being, awareness & growth with intensive yoga & meditation for each student.
4. Instilling Indian culture & values for each student, not to learn all this as History & Geography but learn to live like that.
5. Developing personality traits (focus, effective communication, determination, pro-active approach, handling failures, stress etc.) & positive attitude required for success (This is what corporate sector tries to teach employees who are 25 - 55+ years of age and hardly respond to changes required).

FIITJEE Foundations

Success is never defined in absolute sense. It is very much a subject of relative performance. Children need to imbibe the spirit of competitiveness from an early age and start preparation for major milestone achievements, well in advance so as to avoid stress and pressure of preparation.

The Program Trains a Student for Overall Logical Thinking and Scientific Aptitude at an early age thereby Transforming the Academic Life of Students. This is the time while a student Encounters Change in Academic Methodology from a text based Academics in Class V to a Matured Academic Life in Class VI and Beyond...

Parents will be able to notice substantial difference in the analytical skills and IQ of their little ones.

The course will lay strong foundation for various Competitive / Scholastic Exams like NTSE, Junior Science Olympiad and IIT-JEE.

“I really feel that my IQ has improved a lot more than what it was before joining FIITJEE. FIITJEE has provided me a strong base for IITJEE & Olympiad Exams. ”

In the beginning, it was my father who heard of FIITJEE being one of the best institutes from his colleague, whose son studied there. The advertisements also displayed the same. The success streak of children studying at FIITJEE made me sit for the admission test. Hence, on April 2011, I began my long journey with FIITJEE.

I was really impressed with the teaching facilities. The quizzes for each chapter made sure that I am up to the mark in every stream. The atmosphere is really competitive. The teachers make us understand the concepts really well. The doubt clearing sessions are effective. Phase tests ensure that we understand the topics well and helped me improve my all India rank. I really feel that my IQ has improved a lot more than what it was before joining FIITJEE. FIITJEE has provided me a strong base for IIT-JEE's olympiad exams. This is my strong advice to my juniors that if they wish to be NTSE and IITJEE toppers, they should join FIITJEE NOW. The improvement will be noticed automatically!!

“My main target was to excel in my school exam and strengthen my concepts so that I have a good ranking in competitive exams. The strong base that FIITJEE has gifted me will help me throughout my life.”

I am Himanshu Bhushan. I joined FIITJEE in class VII in the Udaya Two Year Classroom Program. My main target was to excel in my school exams and strengthen my concepts so that I have a good ranking in competitive exams. I must admit I had an excellent experience here. The teachers are very helpful who not only teach with examples but also are always ready to give extra doubt-clearing sessions. They help us to learn with fun. Subjects like mathematics, Phy, Chem and S.S.T which I did not like before are my strengths now. The highly competitive environment that I got here boosted up my desire to study more. The strong base that FIITJEE has “gifted” me will help me throughout my life. At last I want to say, joining FIITJEE have been a very valuable gift that my parents gave me.

“I get an exposure to the competitive world outside and the classes which will take place for IIT. Thus, FIITJEE came as a boon in my life helping me in every possible way.”

I joined FIITJEE in 2011 in Little Genie program. Joining FIITJEE was a big turning point in my life. It helped improve my IQ level drastically. Extra knowledge given helped improve my rank in competitive examinations like NCO, NSO, IMO, NSTSE etc. ~~the~~ Competition is increasing and institutes like FIITJEE help in coping with the pressure. Extra knowledge given during classes helps our improve our rank in examinations like NCO, NSO, IMO, NSTSE etc. When a chapter is taught in school, it makes me easy to understand the concepts very easily. It ~~has~~ also helps me deal with the pressure of exams in the school curriculum. Apart from the information in the books, the faculty always ~~the~~ makes efforts to remove the doubts and enrich us with the extra knowledge they have. Phrase books, FRQ's, CPP's and regular quizzes give us a blueprint of the types of examination in the school and competitive exams. Also, the classes get over very early and I get ample time for recreation. ~~As~~ I get an exposure to the competitive world outside and the classes which will take place for IIT. Thus, FIITJEE came as a boon in my life helping me in every possible ~~the~~ way. Overall, I have ~~for~~ improved in many fields and I am very happy to join FIITJEE.

FIITJEE Mains

IITs have restricted the no. of attempts for IIT-JEE. Students just have two chances – one just after the XII board exams and the second immediately in the next year. They should try to succeed in IIT-JEE in the first attempt itself and not take unnecessary pressure as uncertainty of ill-health or any accidents while appearing for the second & last attempt could be too risky.

Till the eighties, it was alright if you started your preparation just after XI and at the beginning of XII, but even then to get Top Ranks you had to begin your preparation at the commencement of XI itself. In late nineties it became a norm to start preparation at the beginning of class XI and devote at least two years to train rigorously for IIT-JEE.

Now, with the increase in competition and keeping in mind that only two chances are available, only the very talented students can succeed by starting their IIT-JEE training in XI. But, if you do not have an inborn spark that can put you in Top 6000 students in JEE (Advanced) you have no other choice but to start as early as class IX to achieve the desired success in IIT-JEE.

ATHENA is basically SUPREME Program. There will be no difference in studies until class XI or till the entire course for IIT-JEE, 2017 is finished. After that just like SUPREME, **students of ATHENA will realign the goal to JEE (Advanced) or JEE (Main).**

Four years of intensive IIT-JEE training within the school framework is ambrosia for IIT-JEE.

Since, Four Year Integrated School Programs is a social effort, the fee that we charge is less than half of our cost of the program, therefore we have very limited seats available in SUPREME - Four Year Integrated School Program.

I Arpit Agrawal, joined FIITJEE South Delhi in 2009-10 in my class X and then for the session 2010-12, I joined FIITJEE Two Year Classroom Programme in class XI at South Delhi Centre and no other classroom programme in any other institute.

In the class, the concepts were presented in the most logical and interesting manner and detailed conceptual discussions took place whenever the students were in doubt. I got to practise most types of problems within the class itself and supplements were given in the form of CPP's. The teaching system was pattern - proof and equal weightage was given to all topics. The basic emphasis was on the underlying principles. I felt free to ask all kinds of doubts and the teachers addressed all of them patiently.

FIITJEE also has a good system of testing. I had TVCP quizzes, AITS, AITS and common tests which gave me an insight into my performance relative to others and also an idea about what I should expect in IITJEE. The syllabus was completed well in time and thus I had enough time for a thorough revision, concept strengthening and proper practice.

In two years of IITJEE preparation, I also cleared KVPY, RMO (twice), INMO, INChO and first level for physics and astronomy (NSEP and NSEA). I honestly felt that even if I had not been so successful in IITJEE, my opinion about FIITJEE would have been much the same.

I owe my success to FIITJEE South Delhi only.

I came to know about FIITJEE from my friends who had also joined the institute. I joined FIITJEE Chandigarh's Ascent 2 year classroom programme for class 9th and 10th, as it would provide me a good foundation for my JEE preparation. Satisfied by the quality of teachers and healthy competitive environment, I decided to continue my journey at FIITJEE in the Pinnacle-2yr Integrated School Programme.

Pinnacle programme offered me the opportunity to balance both boards and JEE preparation. The teachers at FIITJEE are very experienced, well versed with concepts and tactics to crack a problem. We went through weekly cumulative Assessment Tests which tested our knowledge of the subject while also providing our rank projection. Test Analysis were beneficial in providing an insight over my mistakes.

All India Test Series (AITS) provided me a platform to know my national standing, assess my short comings and mistakes. Rankers Test Paper File (RTPF) were a real time simulations of JEE just in the final days of preparation.

According to me all JEE aspirants should stay focussed, be sincere to studies and always be confident in order to fulfil their desires.

When joining any institute, one must verify its past records, results and standing. One should choose a programme offering maximum time for self study. FIITJEE has been a crucial point in my success. According to me FIITJEE is a IITJEE specialist.

I, Nishanth N Koushik, was a student of FIITJEE for two years in their integrated PINNACLE program. I joined after class 10 by entering the FTRE and got a 100% fee waiver through a good result. My word of advice to any young interested IITJEE aspirants is to look for a good coaching institute very carefully. You may be very intelligent and have targets set for yourself, but for a specialized exam like IIT-JEE, one needs good mentoring which is what I found exactly at FIITJEE. My teachers always gave importance to examples and stressed fundamental concepts instead of just fast tips and tricks. IIT, too, has recently started to focus underlying concepts instead of lengthy problems. The integrated classroom program is very useful in saving time, which is key to any student's preparation. I want to add that lots of young students are afraid of the competitive exams out of fear of getting a bad rank. I would like to stress that it is very essential in any student's preparation. I always found good competition at FIITJEE which spurred me to study even more. Someone must come first but those falling behind should not feel sad. One should analyze mistakes in detail to find out weaknesses. That is how you can gain confidence. Select a coaching institute very carefully, and go for one with clear transparent results.

Thank You FIITJEE.

He has bagged Gold Medal in International Chemistry Olympiad, 2012 held at Washington, DC, USA

I joined FIITJEE in class XI in April, 2010 and after that I had absolutely no reasons to regret.

The faculty at FIITJEE was simply marvellous—they left no stone unturned in teaching concepts as well as in clearing any doubt that even occurred to me. The study packages were of excellent level—they contained theory as well as lots of assignments for thorough practice and mastering concepts.

The classroom environment in FIITJEE was highly competitive and always pushed me to give my best to the JEE preparation. The phase tests and quizzes helped me to get used to tests and also provide regular feedback for my preparation. The phase test papers were discussed and analyzed helping me to identify my weak topics and work hard on them. CPPs provided me with large number of questions on each and every topic helping me to improve my speed and accuracy.

The common test results and analysis gave me an idea about my standing among the students at all India level. It always proved to be a reality check and helped me in gaining confidence and a belief in my abilities.

AITS is undoubtedly the best test series for IIT-JEE aspirants as it offers JEE-like papers and national level competition, thus it was like a JEE simulator. GMP is a nice compilation of problems which is a real boon for the final revision. The RTPF papers were of exact IIT-JEE level and were quite useful in the last month before JEE.

Some students join various institutes and study from various books but I think that focussed preparation is the key to success. It is advisable for students to join a single institute and focus on specialized study material.

I also qualified the KVPY final stage by bagging AIR-6 with all due support from FIITJEE. I also qualified for International Olympiad training camps in Physics, Chemistry and Mathematics with FIITJEE's support.

I can only say that without FIITJEE's support, it would've been impossible for me to achieve this success. I would advise my juniors to join FIITJEE as soon as possible preferably in class 7th and tread on the path of success with FIITJEE. My sincere thanks to FIITJEE.

I was exposed to very cooperative and well qualified teachers. With their constant guidance and competitive atmosphere at fitjee, things seemed quite easy. Here I got to know some other like minded students. There was always a healthy competition going on among us.

All the class tests and AITS that we had were a source of confidence and an appropriate mean to analyse my performance.

During these two years, I also qualified in many national olympiads. For that again I am grateful to my friends and seniors at fitjee. Besides, my parents and my school teachers were also very supportive during these two years. In nutshell, it was a memorable journey with FIITJEE

I came to know about FIITJEE when I was in my class 8. I joined FIITJEE's 2-year integrated PINNACLE programme in the year 2010. I've always felt that one needs to have a study environment wherein he is able to express his views freely and have an open study schedule. As in many other institutes, you are forced to read for long hours independent of the student's preferences on his study schedule. Thus, I chose FIITJEE.

In FIITJEE, the class environment, as I feel, had been perfect in terms of a healthy competition. This always ensured that my competitive spirit was never let down. My classmates were very friendly and even encouraging. When you solve a question put to you before anyone else does, this gives you immense confidence and motivation.

The FIITJEE teachers in terms of explaining concepts were nothing less than awesome! In fact, I consider them as a second family rather than teachers. They solve the problems as good as they are in their concepts. Not to mention, they helped me evolve as an all-rounder and not just give me knowledge. A good teacher can make even a subject of your dislike, quite interesting. About tests I would say, writing a test by itself would not be of much use, until you are provided with the proper feedback and analysis of where you went wrong. Also, the results help you to know your relative stand. This would help us to correspondingly change our study strategy. Results help you in 2 ways - They can either encourage you or caution you of where you are going wrong. This is where FIITJEE system helped me immensely.

FIITJEE had taught me, tested me, encouraged me, cared for me, given me the freedom all in just the right proportions. I'm grateful to FIITJEE as well as my family (the actual one :-)) whom I hold as a key factor for my success. FIITJEE is the best institute for the preparation of IIT-JEE. I would suggest my juniors to join it and get highly effective teaching to achieve what you dreamt of.

I am Arindam Bhattacharya of class IX studying at FIITJEE Bangalore under the 4-year Integrated program 'SUPREME'. I have secured 186 marks out of 200 in NTSE second level examination. I owe my result to my parents, teachers and FIITJEE. NTSE is one of the most tough competitive examinations conducted at the high school level. I began preparing for NTSE in class VII, devoting two years for intensive preparation. I gave equal importance to the mental ability as well as scholastic section and devoted around 3 to 4 hours daily to them. Mental ability was one of my weaknesses and I had to devote extra time to it. ~~Scholar~~ Scholastic includes all 3 subjects, Science, Maths and Social Science and I gave equal time to each of them, though I had to spend additional time on Social Science. Juggling both school and NTSE preparation was another tough job, but thanks to my peer group I was able to do it successfully. My advice to juniors is that ~~se~~ start your preparation early and give equal time and emphasis on both mental ability and ~~scholar~~ scholastic aptitude. For managing school and NTSE preparation, I suggest that try doing those topics for NTSE that are related to the school topics (most of the topics are school topics) first and do the additional topics later. It brings about synchronization. Also, for developing your mental ability, you must try solving sudokus and brain teasers and you must do the problems in the FIITJEE package all by yourself; only then can you improve. The FIITJEE material is comprehensive and time-saving, a factor which comes in handy for revision just before the actual exam. Therefore, be sincere in your effort and manage time properly in your preparation and you can be sure of succeeding in NTSE.

Scholarships, Waivers & Rewards Based on Scholastic Achievements

- Note 1** : Any student can avail only one scholarship (including cash scholarships awarded through Talent Reward Exams etc.) during his / her entire academic session of the program he /she joins at FIITJEE. In case a student is eligible for / awarded more than one scholarship under different criterion, he can avail the scholarship amount whichever is higher but already availed scholarship amount will be deducted from the same. The benefit of higher scholarship (excluding cash scholarship awarded through Talent Reward Exam etc.) will be given only from the date of such award on the balance proportionate fee i.e. {gross fee at the time of enrolment - (initial scholarship amount availed + cost of services availed till the month of such award)}. The amount will be refunded after the realisation of payment of the last installment of Program Fee.
- Note 2** : The mentioned scholarships on the basis of NTSE / JSTSE / SSTSE / MTSE / KVPY / Olympiads are applicable only for those students qualifying in the general category only.
- Note 3** : The photocopy of the original certificate / marksheet of NTSE / JSTSE / SSTSE / MTSE / KVPY / Olympiads and X / XII Board should be attested by the Principal of the school last attended / presently studying.
- Note 4** : Student claiming scholarship under Xth / XII th board performance need to deposit the photocopy of the original marksheet attested by the School Principal latest by **15th September, 2013**, after which no application will be entertained. The Scholarship amount will be paid after the realization of payment of the last installment of Program Fee.
- Note 5** : The Scholarship amount will be paid to the student through a crossed cheque and shall be in favour of the student only. No application for issuing of cheque in favour of parent/guardian will be entertained.

Fee Waivers & Concession

Other Category Fee Waivers

1. 25% Tuition fee waiver for students with Physical Disability.
2. 25% Tuition fee waiver to children of War Widows (Defence Personnel).
3. 25% Tuition fee waiver to son / daughter of Defence Personnel disabled in War.

Fee Concession for siblings of Present / Ex-FIITJEEians

10% fee concession on Tuition Fee to siblings i.e. fee concession to real brothers / sisters of Present / Ex-FIITJEEians enrolled in any FIITJEE Classroom Program. Candidates will be eligible under this criteria after submission of affidavit (**format can be collected from your nearest FIITJEE Centre or downloaded from www.fiitjee.com**) with proof of study of present FIITJEEian or earlier child (ex-students of FIITJEE) & photocopy of Birth certificates of both children (original copy of birth certificates of both children to be presented for verification at the time of enrolment).

Terms & Conditions

1. For Physically Disabled: The benefit will be given to those candidates having at least 40% permanent physical disability in relation to a body part / system / extremity / extremities / whole body etc. for any category of disability (viz., Locomotor, visual, speech, and/or hearing). The student has to submit an attested photocopy of the certificate issued by the Govt. General Hospital. FIITJEE management's decision in this regard will be final and binding.
2. The Scholarships on the basis of X / XII board performance / fee waivers / fee concessions are valid only after qualifying FIITJEE's Admission Test of the respective program.
3. The final discretion of award of scholarships / fee waivers / fee concession in each case will remain with FIITJEE and the decision will be final and binding on the candidate.
4. The mentioned scholarships / fee waivers / fee concession are applicable for those students who enrol themselves between November, 2012 to September, 2013.
5. Any student can avail only one of the "Other Category Fee Waivers" during his / her entire academic session at FIITJEE.
6. An eligible student can get the combined benefit of any one of the "Other Category Fee Waivers" (as mentioned above) along with the "Fee Concession for siblings of Present / Ex-FIITJEEians" and Scholarship if awarded i.e. all the benefits can be compounded as stated in the following example.

For example, if a physically disabled sister / brother of present FIITJEE student who is already enrolled in any Classroom Program qualifies in our Admission Test with a scholarship of 50% on Tuition Fee and if the Tuition Fee of the Classroom program offered to the student is Rs. 10,000/- , the final Tuition fee payable by the student will be calculated as follows

1. Rs. 10,000 less 50% scholarship = Rs. 5,000/-
2. Rs. 5,000 less 25% (Physical Disability Waiver) = Rs. 3,750/-
3. Rs. 3,750 less 10% (Sibling concession)= Rs. 3,375/-

So, the actual Tuition Fee payable by the said student will be Rs. 3,375/- plus applicable Service Tax.

Relevant Correspondence Programs for Class XI & XII Rankers Study Material

Why do students need a correspondence course ?

A balanced classroom program must have

- ❖ High quality interactive lectures.
- ❖ High quality, structured & comprehensive Study Material so that one can solely rely only on this study material.
- ❖ Regular quizzes and tests & test analysis sessions.
- ❖ Timely feedback on possible performance in JEE.
- ❖ Tips to maximize performance in JEE.

It is advisable for all serious aspirants to join appropriate correspondence course or an All India Test Series as per their requirements if their coaching centre does not provide a balanced program.

Most of the coaching classes in the country,

- ◆ Do not support their classroom programs with any Study Material leave aside high quality, structured & comprehensive Study Material.
- ◆ Do not have regular quizzes and tests & test analysis sessions.
- ◆ Do not provide timely feedback on possible performance in JEE.
- ◆ Do not give tips to maximize performance in JEE.

So the coaching is restricted to classroom teaching, some practice problems & a few tests which do not give you a correct idea of your possible performance in the forthcoming JEE.

Preparing well for JEE is one thing and transforming the knowledge & skills into success on the JEE day is another. Many students are not able to adopt the right approach and proper examination temperament, as they do not have the right feedback on their preparation. If you fail in JEE it is a permanent loss, which is irreparable, and mistakes committed are incorrigible. Test Series will teach you how not to fail. It is an opportunity for you to ensure that you convert your skills into success on the JEE day. Test analysis worksheets are provided to help the students realize:

- ❖ Correlation between percentage of marks attempted & marks obtained.
- ❖ Silly mistakes, which could have been avoided.
- ❖ Psychological temperament required to perform optimally in the exam.

Level of difficulty in the tests is changed strategically to prepare students for all types of papers - very difficult to relatively easy ones. It has been observed that JEE papers have been coming up with a different kind of content in one or the other subject in terms of level of difficulty & style of the paper. FIITJEE test series (with Concept Strengthening & Analysis Program) will ensure you do not suffer any setbacks due to these fluctuating trends. The quality of our test papers is evident from the fact that many questions of JEE 1995 to 2012 are either identical or similar to questions, which were part of FIITJEE tests conducted.

Concept Strengthening & Analysis Program (CSAP)

Test series test will be followed by a Concept Strengthening & Test Analysis cum doubt removal program in each subject of Physics, Chemistry and Mathematics conducted by expert FIITJEE faculty members. The key points of this program will be as follows:

- Subject discussion of each paper with emphasis on several ways of attempting a question, wherever possible.
- How to improve strike rate & how to overcome the mistakes that a student often makes during the exam will also be discussed.
- Strategy to attempt the paper of any different difficulty level or pattern.
- Eliminating conceptual doubts, plugging the loopholes related to the papers.
- Strategies for time management during preparation and on the day of the exam.

with additional benefits
