6-MONTH STUDY PLAN:

Preface

Although our book websites contain general study plans, this guide provides a substantially more detailed plan for someone starting about 24 weeks out from the LSAT. The plan assumes you have the Recommended Materials listed below (the Real PrepTests as well as the PowerScore publications), and you are encouraged to consider the optional/supplementary materials as well.

General thoughts

Successfully preparing for the LSAT is about consistency and diligence. Even though the test measures *how* you think and not *what* you know, training yourself to think like the test makers requires time. Simply put: this isn't a test where cramming proves effective! Instead, your efforts need to be extensive, where you make the most of every study opportunity and spend at least ten hours of dedicated time preparing each week (and hopefully much more!).

Six months may seem like a long time, but once you get started you'll find that time moves quickly and test day is here before you know it. So we expect that you're prepared to work hard, and to be incredibly thorough as you follow the assignments provided. With this plan and some hard work, you have more than enough time to read all three LSAT Bibles, and to apply the strategies you learn there to our Type Training guides and Workbooks, as well. We also outline a number of practice tests for you to take. If you find that you cannot complete all of the assignments in the time given, be sure to prioritize your tasks based on your specific areas of weakness and where you feel you have the greatest opportunity to gain points. And we encourage you to attempt additional practice tests (particularly recently-administered exams) if time permits!

Naturally, if you are already extremely strong in one of the areas—say, Reading Comprehension—you can omit portions of the plan tailored to that section and devote that time to further study in another section. Similarly, if you find that you still have room for improvement upon completion of the required material for a given section, our Advanced Courses—Logic Games and Logical Reasoning—and private tutoring are both worthwhile considerations.

Each of the 24 weeks in this study schedule provides a list of recommended tasks—from reading specific chapters, to completing workbook and training type sections, to taking timed practice tests—and should generally be completed in the order given. However, as mentioned, elements can be adjusted as needed to accommodate variations in your day-to-day commitments and your unique skill set as you get closer to test day.

You will notice that each week's assignments are categorized into one of four types: Logical Reasoning, Logic Games, Reading Comprehension, and Practice Tests. This will give you a good sense of exactly what is to be covered during a particular week, and allow you to better adjust the schedule and content to your own needs as you progress.

A chart is provided for each week outlining the materials to be used and sections for your notes and progress reports. We strongly encourage you to keep detailed information about exactly what was completed and when, any elements left uncompleted that should be a priority the following week, and your performance and general thoughts on each. These notes will allow you to more accurately measure your progress as well as track any uncompleted assignments.

We also strongly encourage you to create a detailed LSAT Study Bible to accompany the notes in this study plan in order to better understand the concepts covered and your progress through the material. Begin this *immediately!* Instructions on exactly how to construct your Study Bible are provided here: <http://blog.powerscore.com/lsat/creating-an-lsat-study-bible>.

Finally, the coming weeks will undoubtedly test your resolve—both mentally and physically—so it is extremely important that you fully understand the nature of this test and what even incremental improvements mean. This blog post: <http://blog.powerscore.com/lsat/lsat-motivation-the-scoring-scale-and-your-percentile> should help to motivate you as you continue to prepare, so give it careful consideration.

Let's get started!

Recommended Materials

Real LSATs from LSAC

- June 2007 LSAT, a free download from LSAC [here](#)
- The LSAT Superprep
- PrepTests 47-53, and 56-70
- Note: PTs 52-61 can be found in the 10 New, Actual Official LSAT PrepTests; PTs 62-71 can be found in 10 Actual, Official LSAT PrepTests Volume V

PowerScore Publications

- LSAT Bibles: *Logic Games Bible*, *Logical Reasoning Bible*, and *Reading Comprehension Bible*
- LSAT Training Type Collections: *Game Type Training*, *Logical Reasoning Question Type Training*, and *Reading Comprehension Passage Type Training*
- LSAT Workbooks: *Logic Games Bible Workbook*, *Logical Reasoning Bible Workbook*, and *Reading Comprehension Bible Workbook*

Optional Materials

- Content-specific publications/collections: <http://downloads.powerscore.com/question-collections/>
- PowerScore's *LSAT Deconstructed Series*, particularly the Decons containing explanations for any/all recommended tests below.
- PowerScore Flashcards
- Advanced Courses: Logic Games and Logical Reasoning

Week 1: Twenty-Four weeks to the LSAT

Your first week of study is extremely important. It serves as an introduction to the LSAT itself, and establishes a baseline as you take a timed practice test. Further, you will begin exploring Logical Reasoning (which accounts for 50% of your overall score), with an extensive online introduction presented by one of PowerScore’s senior instructors.

Practice Tests

- Start your week by taking a timed practice LSAT. Before you begin this exam however, read the following information to better understand exactly how you should self-administer this practice test: <http://blog.powerscore.com/lsat/bid/331457/The-Ideal-Way-to-Take-an-LSAT-Practice-Test>
- We encourage you to begin with the June 2007 LSAT, which is available as a free download from LSAC [here](#). Be sure to take this exam under timed conditions, and be diligent and honest in your timing. If you wish, you can use the free test proctor in our [Free LSAT Help Area](#) to time yourself.

This timed test will establish a baseline score, and give you an initial sense of both the test and your natural strengths and weaknesses. Do NOT let the results discourage you! They are in no way indicative of your potential or what your final score will be. It’s merely a chance for you to familiarize yourself with the experience of taking a four-section LSAT under timed (test-day) conditions.

- Upon completion of the exam, it is essential that you score and review your performance using the [Free Test Scoring Area](#). The Test Scoring Area will help you identify your strengths and weaknesses, information you can then use to help you shape your studies.

Note: you do not need to add an experimental section to this exam! Just take all four 35-minute sections in a row, without a break. We’ll let you know when to add experimental sections as you get closer to your test date.

Logical Reasoning

- After scoring and reviewing your practice test, watch the free Lesson One—Logical Reasoning video in our [Free LSAT Help Area](#): Free Lessons section (select the Free Lesson tab at the top of that page and click on LSAT Lesson 1: Logical Reasoning). This video is approximately two hours long and will give you an excellent introduction to Logical Reasoning as well as Must Be True questions, presented by one of our Senior Instructors.

Logic Games

- You have no specific Logic Games assignments for this week.

Reading Comprehension

- You have no specific Reading Comprehension assignments for this week.

Week 2: Twenty-Three weeks to the LSAT

In your second week of preparation, you will begin exploring Logic Games, and continue your introduction to Logical Reasoning, including the consideration of the Question Stem and Answer Choices, Must Be True and Most Strongly Supported questions, and Conditional Reasoning. Each of these elements is absolutely critical to a strong Logical Reasoning performance.

■ Logical Reasoning

- Begin by reading Chapters One through Four of the [LSAT Logical Reasoning Bible](#). This reading selection takes you from an Introduction and Overview of the LSAT in Chapter One, through discussions of the Logical Reasoning section in general in Chapters Two and Three, and into Must Be True questions in Chapter Four.
- Once you feel comfortable with the first four chapters, read Chapter Six on Conditional Reasoning. Conditional Reasoning is a particularly challenging concept for many students, so it is imperative that you spend sufficient time with it, as it will figure heavily in both the Logical Reasoning and Logic Games sections of the LSAT.
- After you finish Chapter Six in the [LSAT Logical Reasoning Bible](#), complete Chapter Two in [LSAT Logical Reasoning: Question Type Training](#). These chapters discuss Must Be True/Most Strongly Supported questions, the most common LR question type and a prominent feature in Reading Comprehension as well.

Note: as you work through the Must Be True questions in the Type Training, you will encounter a number of stimuli featuring Conditional Reasoning.

■ Logic Games

- First, read Chapter Two of the [LSAT Logic Games Bible](#). This will serve as your introduction to Logic Games, as you learn about the basics of Analytical Reasoning. Note that you can skip Chapter One of the Games Bible, as it is the same general introduction to the test that you encountered in Chapter One of the Logical Reasoning Bible.
- Next, read Chapter Three of the [LSAT Logic Games Bible](#). This chapter discusses Basic Linear Games, one of the most fundamental, and most common, types of games on the LSAT.
- Upon completion of Chapter Three of the Games Bible, complete Chapter Two of [LSAT Game Type Training](#), which contains Basic Linear Games.

■ Reading Comprehension

- You have no specific Reading Comprehension assignments for this week.

■ Practice Tests

- You have no specific Practice Test assignments for this week.

Week 3: Twenty-Two weeks to the LSAT

This week you will continue your Logical Reasoning studies with Main Point questions, and this week also presents your introduction to LSAT Reading Comprehension.

■ Logical Reasoning

- For Logical Reasoning, read Chapter Five in the [Logical Reasoning Bible](#). This chapter covers Main Point questions, a common question type in both the Logical Reasoning and Reading Comprehension sections.
- After you read Chapter Five in the [LSAT Logical Reasoning Bible](#), complete Chapter Three in [LSAT Logical Reasoning: Question Type Training](#). This chapter addresses Main Point questions, and will help you better develop your skills at recognizing and understanding argumentation.

■ Reading Comprehension

- Begin by reading Chapter Two of the [LSAT Reading Comprehension Bible](#). Skip the section in Chapter Two that covers argumentation as you have already covered this content elsewhere. Note that you can also skip Chapter One, as that is an overview of the test that you have already encountered in Week One.
- We also encourage our students to become active readers of publications and journals the tone and style of which closely aligns with passages on the LSAT. This will help you more quickly acclimate to the nature of passages created by the test makers. Some examples of worthwhile sources of additional reading include: The Economist, Scientific American, The Wall Street Journal or New York Times, and other economically-, legally-, or scientifically-oriented texts.

■ Logic Games

- You have no specific Logic Games assignments for this week.

■ Practice Tests

- You have no specific Practice Test assignments for this week.

Week 4: Twenty-One weeks to the LSAT

This week continues your examination of linearity in Logic Games as you cover Advanced Linear games. You will also continue your Logical Reasoning studies with Weaken questions, and a comprehensive look at Causality.

■ Logic Games

- Once you are finished with all of the Basic Linear Games assignments from Week 2, work through Chapter Four of the [LSAT Logic Games Bible](#). This chapter addresses Advanced Linear Games, a natural extension of Basic Linear Games, and another extremely common game type. Note: do not move on to Advanced Linear Games until you feel comfortable with the Basic Linear Games addressed previously.
- Next, complete Chapter Three of [LSAT Game Type Training](#). Here you will encounter a number of Advanced Linear Games to reinforce the skills you learned in Chapter Four of the LGB.

■ Logical Reasoning

- First, read Chapter Seven the [Logical Reasoning Bible](#). This chapter examines Weaken questions, which constitute the only question type in the Family #3: Hurt category (as discussed in Chapter Three).
- Next, work through Chapter Eight of the [Logical Reasoning Bible](#). Chapter Eight covers both basic and advanced Causal Reasoning, a very common type of reasoning on the test (and particularly prevalent in Weaken questions).
- Finally, complete Chapter Four of [LSAT Logical Reasoning: Question Type Training](#). This chapter specifically addresses Weaken questions, and thus features a significant amount of Cause and Effect Reasoning as well.

■ Reading Comprehension

- You have no specific Reading Comprehension assignment this week.

■ Practice Tests

- You have no specific Practice Test assignments for this week.

Week 5: Twenty weeks to the LSAT

This week will continue your analysis of Reading Comprehension, and you will also go further with Logical Reasoning. It's still too soon for full Practice Tests; focus instead on mastering the concepts discussed for each section.

■ Reading Comprehension

- Read Chapter Three of the [LSAT Reading Comprehension Bible](#) on Passage Elements and Formations.
- You should also continue to actively read non-LSAT material and publications as previously recommended, and attempt to apply the reading skills discussed in Chapter Two of the Reading Comprehension Bible.

■ Logical Reasoning

- Read Chapter Nine of the [Logical Reasoning Bible](#). This chapter addresses Strengthen questions, and you will encounter Causality frequently as well (causal reasoning appears in the majority of Strengthen questions).
- Next, complete Chapter Five of [LSAT Logical Reasoning: Question Type Training](#). This will give you an opportunity to reinforce your Strengthen abilities as outlined in the Logical Reasoning Bible.

■ Logic Games

- You have no specific Logic Games assignments for this week.

■ Practice Tests

- You have no specific Practice Test assignments for this week.

Week 6: Nineteen weeks to the LSAT

This is a bit of a lighter week, in order to let some of the ideas settle in. But DO NOT get complacent! This is also an opportunity for you to get back on schedule if you have fallen behind in previous weeks, so use your time effectively.

■ Logic Games

- Read Chapter Five of the [LSAT Logic Games Bible](#). Here you will learn about Grouping Games, one of the most common—and most challenging—game types.
- Then, complete Chapter Four of [LSAT Game Type Training](#) to ensure a full understanding of Grouping Games.

■ Reading Comprehension

- Continue your Reading Comprehension studies by working through Chapters Four and Five of the [LSAT Reading Comprehension Bible](#). Here you will encounter many key concepts such as Diagramming and how to best attack the various question types and answer choices.

■ Logical Reasoning

- You have no specific Logical Reasoning assignments for this week.

■ Practice Tests

- You have no specific Practice Test assignments for this week.

Week 7: Eighteen weeks to the LSAT

At this point you should be entirely caught up with the previous weeks' assignments. If you are still behind, make it a priority to complete any remaining work before moving on with this week's content.

■ Reading Comprehension

- Continue your Reading Comprehension studies by working through Chapter Six of the [LSAT Reading Comprehension Bible](#). This is a summary chapter where all of the ideas you have seen so far get incorporated into a single, overarching approach.
- Next, complete the first half of Chapter Nine in [LSAT Reading Comprehension: Passage Type Training](#).

■ Logical Reasoning

- Read Chapter Ten of the *Logical Reasoning Bible*. Here you will examine Justify the Conclusion questions.
- Next, complete Chapter Six of *LSAT Logical Reasoning: Question Type Training* to hone your Justify skills.

■ Logic Games

- You have no specific Logic Games assignments for this week.

■ Practice Tests

- You have no specific Practice Test assignments for this week.

Week 8: Seventeen weeks to the LSAT

This week will continue your analysis of Logical Reasoning as you examine a very challenging question type: Assumption. You will also further explore Logic Games by tackling Linear/Grouping combination games.

■ Logical Reasoning

- Read Chapter Eleven of the [Logical Reasoning Bible](#). This chapter introduces Assumption questions, one of the most challenging question types for many test takers. So take your time as you work through the ideas presented to ensure a complete understanding of them.
- Next, complete Chapter Seven of [LSAT Logical Reasoning: Question Type Training](#) to hone your Assumption skills.

■ Logic Games

- Read Chapter Six of the [LSAT Logic Games Bible](#). Here you will examine Linear/Grouping Combination games, so this is a good opportunity to review both Linear and Grouping concepts. This game type can be extremely difficult for test takers, so it is imperative that allow yourself plenty of time to work through this chapter.
- Finally, complete Chapter Five of [LSAT Game Type Training](#).

■ Reading Comprehension

- You have no specific Reading Comprehension assignments for this week.

■ Practice Tests

- You have no specific Practice Test assignments for this week.

Week 9: Sixteen weeks to the LSAT

At this point you should have completed all of the assigned tasks for the first eight weeks. If you are still behind, prioritize any missed work and attempt to get caught up. This slightly-reduced workload is done to allow you to complete any missed assignments and review and specific areas of difficulty. The coming weeks will be more intensive, however, so prepare yourself to devote a sufficient amount of time to your studies in the weeks ahead.

■ Reading Comprehension

- Read Chapter Seven of the [LSAT Reading Comprehension Bible](#). This chapter addresses Comparative Reading Passages and thus is vitally important to fully understand, as approximately one-fourth of your Reading Comprehension score is based on the Comparative Reading passage set.
- Complete the second half of Chapter Nine in [LSAT Reading Comprehension: Passage Type Training](#).

■ Logic Games

- Read Chapter Seven of the [LSAT Logic Games Bible](#). This chapter covers the first in a set of less common game types, Pure Sequencing games.
- Complete Chapters Six of [LSAT Game Type Training](#).

■ Logical Reasoning

- You have no specific Logical Reasoning assignments for this week.

■ Practice Tests

- You have no specific Practice Test assignments for this week.

Week 10: Fifteen weeks to the LSAT

The assignments for this week are also fairly light, so use the extra time to review concepts that are still giving you trouble—weekly practice tests start next week!

■ Logical Reasoning

- Read Chapter Twelve of the [Logical Reasoning Bible](#). Here you will see Resolve the Paradox questions, the final question type in the Family #2: Help category.
- Next, work through Chapter Eight of [LSAT Logical Reasoning: Question Type Training](#).

■ Reading Comprehension

- Complete the first half of Chapter One: Practice Drills in the [LSAT Reading Comprehension Bible Workbook](#), beginning with the Active Reading Drill and stopping after the VIEWSTAMP Analysis: Main Point Identification Drill. Note that this can be skipped if you are feeling comfortable with your Reading Comprehension performance at this point, or at least prioritized lower if you find other areas of the test still require significant attention.

■ Logic Games

- You have no specific Logic Games assignments for this week.

■ Practice Tests

- You have no specific Practice Test assignments for this week.

Week 11: Fourteen weeks to the LSAT

This week will require you to do a full, timed practice test, so plan accordingly: you will need a block of at least 2.5-3 hours of free time to work through the exam. If possible, make the practice test the final task this week, and be sure to consider our recommendations on How To Take LSAT Practice Tests if you are unclear on the proper way to self-administer an exam: <http://blog.powerscore.com/lsat/bid/331457/The-Ideal-Way-to-Take-an-LSAT-Practice-Test>.

■ Reading Comprehension

- Complete the rest of Chapter One: Practice Drills in the [LSAT Reading Comprehension Bible Workbook](#) (if you used this resource as suggested last week, this means beginning with the Passage Elements and Formations Recognition Drill). Note, again, that this may not be necessary if you are feeling comfortable with your Reading Comprehension performance at this point.

■ Logic Games

- Read Chapter Eight of the [LSAT Logic Games Bible](#). This chapter covers the remainder of the less common game types, such as Pattern, Circular, and Mapping games. Again, if you are behind or still struggling to master earlier types such as Linear and Grouping games, make those more fundamental concepts a priority before moving on.
- Complete Chapter Seven of [LSAT Game Type Training](#).

■ Practice Tests

- Take PrepTest A from the [SuperPrep](#) as a timed exercise. Thereafter, review your performance and read the question explanations in the [SuperPrep](#). They are by no means the best possible explanations (the test makers don't want to give away too much in terms of strategy explanations), but they give you a sense of the things that the test makers identify as important when they analyze questions.

Consider these explanations and your specific performance in terms of the skills you have been learning, and attempt to go beyond the test maker's discussions as you analyze your results.

■ Logical Reasoning

- You have no specific Logical Reasoning assignments for this week.

Week 12: Thirteen weeks to the LSAT

This week, and all of the weeks to come, will continue requiring you to take timed practice tests, however you will now begin adding experimental sections into the original four-section exams. So again, plan accordingly: you will need up to 4 hours of uninterrupted time to complete the tests, and you should spend several hours reviewing your performance on each as well.

■ Logical Reasoning

- Read Chapter Thirteen of the [Logical Reasoning Bible](#). Here you will see Formal Logic, a rare, but challenging, concept with which many test takers struggle. However, if you are falling behind in your studies, you can save this assignment for later, as Formal Logic is quite uncommon (1-2 questions per LSAT, typically) and your time may be better spent elsewhere.
- Once you have completed the chapter on Formal Logic in the Reasoning Bible, work through Chapter Nineteen of [LSAT Logical Reasoning: Question Type Training](#) to reinforce your skills.

■ Reading Comprehension

- Read Chapter Eight of the [LSAT Reading Comprehension Bible](#) on Common Passage Themes.

■ Practice Tests

- Take PrepTest 56 as a timed exercise. Use section 1 from [PrepTest 47](#) as an experimental section. You may refer back to our guide on How To Take LSAT Practice Tests if you need clarification: <http://blog.powerscore.com/lsat/bid/331457/The-Ideal-Way-to-Take-an-LSAT-Practice-Test>

■ Logic Games

- You have no specific Logic Games assignments for this week.

Week 13: Twelve weeks to the LSAT

The focus during the next several weeks is going to slowly transition away from individual concept discussions and reviews, and towards full, timed practice tests. So the key as you make that adjustment is to allow for plenty of time for thorough test analysis, and then do concept-specific reviews as needed based on your test performance.

■ Logic Games

- Read Chapters Nine and Ten of the [LSAT Logic Games Bible](#). As you work through these chapters you will encounter the advanced ideas of Numerical Distributions and Limited Solution Set games. Nearly one-third of all games that appear on the LSAT will have at least one of these features (many games have both), so learn them well. Often, your ability to spot a numerical distribution or a limited solution set will be the difference between success and failure in the games section.

There is also a lengthy discussion on overall section strategy that should help you better understand how to put all of the skills you have learned into practice.

■ Reading Comprehension

- Complete Chapter Nine in [LSAT Reading Comprehension: Passage Type Training](#) if you have not already done so. If you have finished Chapter Nine in the Type Training guide, there are no additional Reading Comprehension assignments for this week.

■ Practice Tests

- Take [PrepTest 57](#) as a timed exercise. Use section 2 from [PrepTest 47](#) as an experimental section.

■ Logical Reasoning

- You have no specific Logical Reasoning assignments for this week.

Week 14: Eleven weeks to the LSAT

This week you will be dealing with some advanced features of Logic Games, as well as both Method and Flaw questions in Logical Reasoning, and finish up with a practice test and test review from the Superprep.

■ Logic Games

- Complete Chapter Eight of [LSAT Game Type Training](#). Here you will work through a large collection of games exhibiting the Advanced Features covered in the Logic Games Bible from the previous week. Once you finish this chapter you will have completed the Game Type Training book.
- Complete the first half of Chapter One of the [LSAT Logic Games Bible Workbook](#).

■ Logical Reasoning

- Read Chapters Fourteen and Fifteen of the [Logical Reasoning Bible](#). The question types discussed—Method of Reasoning and Flaw in the Reasoning—are very closely related, so it is useful to pair these two chapters with one another.
- Complete Chapters Nine and Ten of [LSAT Logical Reasoning: Question Type Training](#).

■ Practice Tests

- Take PrepTest B from the [SuperPrep](#) as a timed exercise. You do not need to add an experimental section to this exam.

Thereafter, review your performance and read the question explanations in the [SuperPrep](#). As before, consider these explanations and your specific performance in terms of the skills you have been learning, and attempt to go beyond the test maker’s discussions as you analyze your results.

■ Reading Comprehension

- You have no specific Reading Comprehension assignments for this week.

Week 15: Ten weeks to the LSAT

This week you will continue to examine Logical Reasoning—Parallel Reasoning questions in particular—as well as Reading Comprehension, closing with a PrepTest to allow you to put the concepts discussed in the LSAT Bibles to practical use.

■ Logical Reasoning

- Read Chapters Sixteen and Seventeen of the [Logical Reasoning Bible](#). These chapters respectively cover Parallel Reasoning questions, which can be extremely time-consuming without the proper approach, and Numbers and Percentages, a challenging concept featured in many LSAT stimuli. These questions also pair nicely with the other two types discussed last week, Method and Flaw.
- Complete Chapters Eleven and Eighteen of [LSAT Logical Reasoning: Question Type Training](#).

■ Reading Comprehension

- Read Chapter Nine of the [LSAT Reading Comprehension Bible](#). This discussion of Section Strategy and Time Management will take you to the end of the Reading Bible's conceptual analyses.
- Complete Chapter One in [LSAT Reading Comprehension: Passage Type Training](#). You will notice that you are working through the chapters out of order, but this is intentional to reinforce the skills learned in the Reading Comprehension Bible.

■ Practice Tests

- Take [PrepTest 58](#) as a timed exercise. Use section 3 from [PrepTest 47](#) as an experimental section.

■ Logic Games

- You have no specific Logic Games assignments for this week.

Week 16: Nine weeks to the LSAT

At this point you have reviewed the vast majority of the test’s key concepts, so timing starts to take a greater role in your preparation.

■ Logical Reasoning

- Read Chapters Eighteen through Twenty of the [Logical Reasoning Bible](#). These three chapters cover the remaining LR question types, each of which appears infrequently. Of these three types, focus primarily on Point at Issue, which is the most common of the three.

Once complete, all that is left in Logical Reasoning is a discussion of Principle questions (not a distinct “type” per se, but a rather commonly-featured idea), and a final analysis of Section Strategy and Time Management.

- Work through Chapters Twelve through Fourteen of [LSAT Logical Reasoning: Question Type Training](#). Again, if you are short on time focus mainly on Point at Issue (Chapter Fourteen).
- Complete Chapter One of the [LSAT Logical Reasoning Bible Workbook](#).

■ Reading Comprehension

- Complete Chapters Two, Three, and Four in [LSAT Reading Comprehension: Passage Type Training](#).
- Also complete the individual passages in Chapter Two of the [LSAT Reading Comprehension Bible Workbook](#), and carefully review the detailed analysis given for each.

■ Practice Tests

- Take PrepTest C from the [SuperPrep](#) as a timed exercise. You do not need to add an experimental section to this exam.

As with PrepTests A and B, you do not need to add an experimental section to this exam. You should instead attempt all four sections consecutively (no breaks), and upon completion you should consider the accompanying explanations and your specific performance in terms of the skills you have been learning, and attempt to go beyond the test maker’s discussions as you analyze your results.

■ Logic Games

- You have no specific Logic Games assignments for this week. However we do strongly encourage you to review your practice test thoroughly, so you will have several games to consider there.

Week 17: Eight weeks to the LSAT

This week brings you to the end of the Logical Reasoning Bible, and provides opportunity to apply your Logical Reasoning skills to assignments in both LR Question Type Training, and the PowerScore LR Workbook. You will also continue to explore Reading Comprehension, and get some testing practice with a full length PrepTest.

■ Logical Reasoning

- Read Chapters Twenty One and Twenty Two of the [Logical Reasoning Bible](#). This will take you to the end of this book, however be sure to return to it frequently as you continue to take tests and identify areas of weakness. For instance, if you find that a particular question type or idea consistently gives you trouble, use the Reasoning Bible to review that concept/type and attempt to eliminate any remaining difficulties.
- Complete Chapters Sixteen and Seventeen of [LSAT Logical Reasoning: Question Type Training](#). Here you will encounter questions focusing on Conditional and Causal Reasoning.
- Complete Chapter Two of the [LSAT Logical Reasoning Bible Workbook](#).

■ Reading Comprehension

- Complete Chapters Five and Six in [LSAT Reading Comprehension: Passage Type Training](#).

■ Practice Tests

- Take [PrepTest 59](#) as a timed exercise. Use sections 1 and 2 from [PrepTest 48](#) as two experimental sections, in order to “overdrive” your testing. After taking six-section tests, the real five-section LSAT won’t seem quite as exhausting: you are essentially preparing yourself for test day by doing more than what is required, so that when you take the actual five-section exam you are physically and mentally conditioned in excess of what is need.

■ Logic Games

- You have no specific Logic Games assignments for this week. However we do strongly encourage you to review your practice tests thoroughly, so you will have several games to consider there.

Week 18: Seven weeks to the LSAT

The focus now moves to working through as many tests as possible under timed conditions, in order to acclimate you to the rigors of the LSAT. Each of these practice exams must be thoroughly reviewed as you consider your evolving strengths and weaknesses. You can then return to any/all relevant conceptual discussions in the LSAT Bibles.

■ Reading Comprehension

- Complete the entire Passage ReChallenge section of the [LSAT Reading Comprehension Bible](#) doing each ReChallenge Set as a timed exercise. Thoroughly review the explanations.

■ Practice Tests

- Take [PrepTest 60](#) as a timed exercise. Use sections 3 and 4 from [PrepTest 48](#) as two experimental sections.

■ Logical Reasoning

- You have no specific Logical Reasoning assignments for this week.

■ Logic Games

- You have no specific Logic Games assignments for this week.

Week 19: Six weeks to the LSAT

In the last several weeks of your preparation, timed practice tests become increasingly important, as a gauge of your progress and an opportunity to continue to hone your LSAT skills.

■ Logic Games

- Complete the second half of Chapter One from the [Logic Games Bible Workbook](#).

■ Practice Tests

- Take [PrepTest 61](#) as a timed exercise. Use sections 1 and 2 from [PrepTest 49](#) as two experimental sections.

■ Logical Reasoning

- You have no specific Logical Reasoning assignments for this week.

■ Reading Comprehension

- You have no specific Reading Comprehension assignments for this week.

Week 20: Five weeks to the LSAT

This week brings you to the end of your review of LSAT Reading Comprehension, and includes only a single PrepTest, allowing extra time to review more challenging areas, and prepare for the last few weeks before the test.

■ Reading Comprehension

- Complete Chapters Seven and Eight in [LSAT Reading Comprehension: Passage Type Training](#).
- Work through the full Reading Comprehension sections in Chapters Three and Four of the [LSAT Reading Comprehension Bible Workbook](#), and thoroughly review the explanations provided for each.

■ Practice Tests

- Take [PrepTest 62](#) as a timed exercise. Use sections 3 and 4 from [PrepTest 49](#) as two experimental sections (Consider using the copy of the test in [December 2010 LSAT Deconstructed](#) because that book also contains a complete explanation for the test).

■ Logical Reasoning

Week 21: Four weeks to the LSAT

With about a month to go before the test, you have plenty of time to apply the skills that you have developed over the last twenty weeks; each remaining week will feature two full-length, timed practice tests.

■ Logic Games

- If Games continue to trouble you, complete Chapter Two of the [LSAT Logic Games Bible Workbook](#). Do each game as a timed exercise, but know that you will have encountered some of the games previously. This is not a problem—reviewing games multiple times is quite beneficial.

■ Practice Tests

- Take [PrepTest 63](#) as a timed exercise. Use sections 1 and 2 from PrepTest 50 as two experimental sections (Consider using the copy of the test in [June 2011 LSAT Deconstructed](#) because that book also contains a complete explanation for the test).
- Take [PrepTest 64](#) as a timed exercise. Use sections 3 and 4 from PrepTest 50 as two experimental sections.

■ Logical Reasoning

- You have no specific Logical Reasoning assignments for this week.

■ Reading Comprehension

- You have no specific Reading Comprehension assignments for this week.

Week 22: Three weeks to the LSAT

This week brings two more full-length practice tests, providing opportunity to further hone your skills, as you continue to develop a comfort with the pacing and length of timed practice tests.

■ Practice Tests

- Take [PrepTest 65](#) as a timed exercise. Use sections 1 and 2 from [PrepTest 51](#) as two experimental sections.
- Take [PrepTest 66](#) as a timed exercise. Use sections 3 and 4 from [PrepTest 51](#) as two experimental sections (Consider using the copy of the test in [June 2012 LSAT Deconstructed](#) because that book also contains a complete explanation for the test).

Week 23: Two weeks to the LSAT

With two weeks to go, be sure to take full advantage of each remaining practice test. That means doing everything right! Prephrasing, game diagramming, passage notating—to help ensure a solid performance on test day, treat your last few practice tests as if each one were the real thing.

■ Practice Tests

- Take [PrepTest 67](#) as a timed exercise. Use sections 1 and 2 from [PrepTest 52](#) as two experimental sections (Consider using the copy of the test in [October 2012 LSAT Deconstructed](#) because that book also contains a complete explanation for the test).
- Take [PrepTest 68](#) as a timed exercise. Use sections 3 and 4 from [PrepTest 52](#) as two experimental sections (Consider using the copy of the test in [December 2012 LSAT Deconstructed](#) because that book also contains a complete explanation for the test).

Week 24: One week to the LSAT

This week is about both conceptual and mental preparation. You should plan to take 2 practice tests as outlined below, allowing ample time for review, however be sure that you do not attempt a test the day before the exam. Focus in particular on building your confidence and visualizing a strong performance on test day—how you expect to perform will likely become reality.

■ Practice Tests

- Take [PrepTest 69](#) as a timed exercise. Use sections 1 and 2 from [PrepTest 53](#) as two experimental sections (Consider using the copy of the test in [June 2013 LSAT Deconstructed](#) because that book also contains a complete explanation for the test).
- Take [PrepTest 70](#) as a timed exercise. Use sections 3 and 4 from [PrepTest 53](#) as two experimental sections.

The day of the LSAT:

You want this day to be as predictable and distraction-free as possible, do everything that you can to stay calm, focused, and above all, positive!

- [Eat a wholesome breakfast.](#)
- Perhaps review a Logic Game or a few Logical Reasoning questions to get your brain revved up. These can even be games/questions you've attempted previously! Just keep it to a minimum, and stay confident at all times!
- Get to the testing center early. It may also be wise to visit the site a few days prior to the test if you are unfamiliar with the location, so you can get a sense of parking and general layout.
- Destroy the LSAT!

After the LSAT:

There are a number of questions that most test takers begin to ponder post-LSAT. Three of the most common are given below, along with comprehensive explanations of each:

- Can I determine the experimental section, and what exactly do I need to know about it?
