CLASSIFICATION OF INSTRUCTIONAL PROGRAMS INTRODUCTION

The purpose of the Classification of Instructional Programs (CIP) is to provide a taxonomic scheme that will support the accurate tracking, assessment, and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985 and 1990. The 2000 edition of the CIP (CIP- 2000) is the third revision of the taxonomy and presents an updated taxonomy of instructional program classifications and descriptions. The CIP is the accepted federal government statistical standard on instructional program classifications and is used in a variety of education information surveys and databases. The CIP is also used by the National Academy of Sciences, state agencies, national associations, academic institutions, and employment counseling services as the basis for collecting, reporting, and analyzing instructional program data.

For more information on CIP Codes visit the U.S. Department of Education's National Center for Education Statistics' (NCES) Web site at <http://nces.ed.gov/pubsearch/pubsinfo.asp?pubid=2002165>.

For the purpose of this handbook, the CIP codes are helpful because postsecondary institutions assign them to their programs. There are many different names for the same program, so it is helpful to categorized programs by CIP code. The Cross Reference Index (identified below) is a tool used to located programs by CIP code and the postsecondary institutions that offer the programs.

There are four sections to this chapter:

1. CIP Categories

- The two-digit codes and NCES-defined programs are located at the beginning of each program group; the program titles appear in capital letters (examples: 01. AGRICULTURE, AGRICULTURE OPERATIONS, AND RELATED SCIENCES)
- When looking for a program, the first thing to identify is the two-digit Series code.

2. Numeric listing by CIP code

- Narrow the search for programs by using the Numeric listing.
- NCES program titles at this level appear with more detail (examples: 01.00 Agriculture, General; 01.01 Agricultural Business and Management, and 01.02 Agricultural Mechanization)
- Once the CIP code is identified, use the Cross Reference Index to find which postsecondary institutions offer the program. (See the next page for instructions.)

3. Alphabetical listing by program name

- NCES programs listed alphabetically
- Search for the NCES-defined program name and identify the CIP code.
- Once the CIP code is identified, use the Cross Reference Index to find which postsecondary institutions offer the program. (See the next page for instructions.)

4. Cross Reference Index

- A list of programs offered at Michigan postsecondary institutions sorted by CIP Code.
- Includes the institutions' program names, as well as the names of the institutions that offer the programs and the degree levels defined by the institutions.

Using the Cross Reference Index

How can I find which colleges offer a certain program?

Step 1 – Find the CIP Category

Find the two-digit CIP Code for the program of interest by referring to **CIP Categories**

(http://www.michigan.gov/documents/CIP_Categories_151809_7.pdf).

50.	Visual and Performing Arts
51.	Health Professions and Related Clinical Sciences
52.	Business, Management, Marketing, and Related Support Services
53.	High School/Secondary Diplomas and Certificates
54.	History (new)
55.	French/Canadian Language and Literature/Letters
60.	Residency Programs

Step 2 – Refine the Search

To refine that search, refer to the **CIP Numerical** section

(http://www.michigan.gov/documents/CIP_Numerical_151810_7.pdf),

or the **CIP Alpha** section

(http://www.michigan.gov/documents/CIP_Alpha_151808_7.pdf).

52.0302	Accounting Technology/Technician and Bookkeeping.
52.0301	Accounting.
40.0809	Acoustics.
50.0506	Acting.

Step 3 – Refer to the Cross Reference Index

Once the CIP code has been determined, refer to the **Cross Reference Index**

(http://www.michigan.gov/documents/Cross_Reference_Index_151812_7.pdf).
